Railway Terminal World Showcase: Published September 2016

THE MAGAZINE

Railway Terminal World Annual Showcase 2016 will be published in September ahead of Innotrans 2016. The fully illustrated publication showcases the design services, innovation and technologies found in modern and forthcoming rail stations. The showcase presents the latest trends in the buoyant rail market to an international readership of over 8,000 senior purchasers and specifiers within new and existing facilities. Railway Terminal World is the definitive reference point for specifying next-generation stations and refurbishments, with contributions from all the major players. The perfect-bound book is published by the team behind Passenger Terminal World magazine and the organiser of Passenger Terminal EXPO.

READERSHIP AND CIRCULATION

Railway Terminal World is read by:

- Transportation infrastructure – government and private sector
- Rail operations
- Architecture and industrial design
- Suppliers

DISTRIBUTED AT:

Innotrans 2016

MAJOR FEATURES FOR 2016

International demand for modern passenger railway networks has never been higher, guaranteeing a lucrative and vibrant business environment for equipment and service providers in terminals. Our 2016 Annual Showcase will provide:

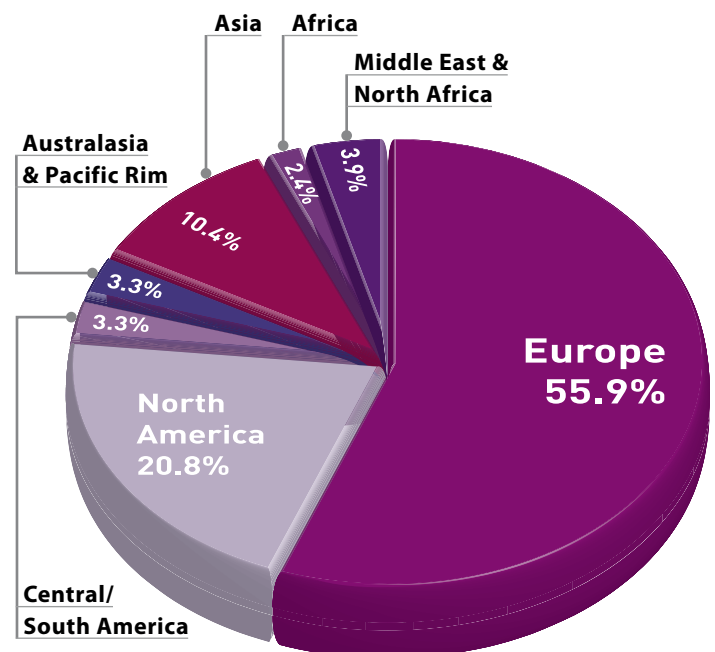

- Exclusive interviews with project managers from five of the world's largest terminal projects
- International case studies on the leading railway terminal developments
- Construction update: A global roundup of the latest mega rail and terminal projects
- Systems for control, security, safety and monitoring commuters inside the terminal
- Retail and catering focus
- The future of ticketing and access control

SPECIAL PACKAGES*

- New Product Launch
- Supplier Interview

* Rates available on request. Contact David Binge for details. Email: david.binge@ukipme.com, Tel: +44 (0)1306 743 744

CIRCULATION BREAKDOWN BY REGION*

* The September 2016 Annual showcase edition of Railway Terminal World magazine will have a total circulation of over 8,000 copies worldwide
