

EXHIBITOR LISTINGS

2NDSENSE AIRPORTCREATORS

Stand: 1669

Stand Representatives: Ge Smit, Rogier

Doffegnies, Alex Jansen

Address: Vendelier 57c, Veenendaal, 3071 PC, Netherlands

Tel: +31 638 513530

Email: ge@airportcreators.com

Web: www.airportcreators.com

AirportCreators teams strategy consultants, project managers and principal engineers in the field of airport development. It clears the path for innovation and long-term value, putting forward non-traditional solutions that break with the past. The company's focus is on understanding and solving the real problems an airport is facing. AirportCreators realises innovative and appraised concepts, end to end. Its services uniquely combine the fine flower of airport development expertise and a rock-solid approach to project management based on systems engineering.

3DREID

Stand: 302

Stand Representatives: Paul Green, Hanna

Edgren, Phil Oakes, Rebecca Sarshar

Address: 1 Hills Place, London, W1F 7SA, UK

Tel: +44 3452 716 100

Email: paul.green@3dreid.com

Web: www.3dreid.com/

3DReid is an award-winning architectural practice, providing full design services from masterplanning to interior design across the entire airport. From passenger-facing terminal areas to complex operational facilities, the company has a keen understanding of the political, business and stakeholder drivers of airport operations and is experienced in dealing with the specific challenges of working within a live environment. It has established a strong reputation for terminal refurbishments, building a portfolio of complex projects, and following its RIBA award-winning designs for Farnborough Airport, the company continues to be recognised as one of the leading designers of executive passenger terminals.

ACCESS IS

Stand: 800

Stand Representatives: Raj Jain

Address: Unit 18 Suttons Business Park, Reading, Berkshire, RG6 1AZ, UK

Tel: +44 118 966 3333

Fax: +44 1189 966 7281

Email: andrew.covey@access-is.com

Web: www.access-is.com

Taking centre stage is the BGR750, a modular flatbed 1D/2D barcode reader with optional MRZ and NFC reading. Designed for desktop or embedded use, it's the perfect choice where flexibility is key. It sits alongside ATOM, Access IS's flagship multi-function 2D barcode/passport reader, which is available with an optional expansion dock for contact smartcard and magnetic swipe reading. Also featured, the BGR700 is a face-up reader with an extra-wide throat designed to read boarding passes from any media. It delivers faster barcode reading than previous models and is field upgradable for contactless operation to cater for the latest NFC devices.

ACOREL

Stand: 620

Stand Representatives: Bruno Aulagner, Erika Cacciaguidi

Address: Technoparc Pole 2000, 3 rue Paul Langevin, Saint Peray, 07 130, France

Tel: +33 475 40 59 79

Fax: +33 475 40 57 71

Email: bruno.aulagner@acorel.com

Web: www.acorel.com

Since 1989, Acorel has been recognised as a global leader in people flow analysis, queue management and automatic people-counting solutions. Its solutions meet the needs of all the airport key players (operators and subcontractors, aviation companies, passengers, border control staff, duty-free managers) by providing passenger flow evaluation and alerts in real time. The Queue Management and Predictive Waiting Time System can be used in various fields to bring accurate and significant information to help address such areas as: staff management optimisation, customer experience improvement, passenger information, efficient passenger

flow, checkout resources allocation, sizing toilet infrastructures, optimising waiting time, etc.

ADB SAFEGATE

Stand: 315

Stand Representatives: Tom Blancquaert

Address: Leuvensesteenweg 585, Zaventem, B-1930, Belgium

Tel: +32 2722 1711

Email: marketing@adbsafegate.com

Web: www.adbsafegate.com

ADB Safegate is a leading provider of intelligent solutions that deliver superior airport performance from approach to departure. It partners with airports and airlines to analyse their current structures and operations, and jointly identify and solve bottlenecks. Its consultative approach enables airports to improve efficiency, enhance safety and environmental sustainability, and additionally reduce operational costs. Its portfolio includes solutions and services that harmonise airport performance, tackling every aspect of traffic handling and guidance, from approach, runway and taxiway lighting, to tower-based traffic control systems and intelligent gate and docking automation.

ADECS AIRINFRA

Stand: 935

Stand Representatives: Peter Frankena, Pieter de Goeij

Address: Prinses Beatrixlaan 542, WTC The Hague Tower C / 8th, Den Haag, 2595 BM, Netherlands

Tel: +31 85 00 711 00

Email: p.frankena@airinfra.eu

Web: www.airinfra.eu

Adecs Airinfra offers over 18 years of experience in consultancy and IT solutions supporting airports with their development and improving airport efficiency. The focus of the company's Airport IT team is to provide smart, innovative and affordable IT solutions for regional airports. The product range of the AirSystems suite extends from AODB management systems (AirLink), registration systems (AirFee) and visualisation systems (AirMap), up to FIDS control systems (AirSignage).

ADELTE

Stand: 420

Stand Representatives: Jordi Floreta, Martin Westphal, Jaume Sanchez, Iñaki Peñarrubia, Raul Perez

Address: Buenos Aires 1, Barcelona, 08029, Spain

Tel: +34 902 300 601

Fax: +34 933 632 295

Email: info@adelte.com

Web: www.adelte.com

ADELTE delivers innovative, made-to-measure, high-quality passenger boarding bridges (PBBs) with two or three bodies, a hydraulic or electromechanical elevation system and glass or steel tunnels. Its complete line includes apron drives, A380 apron drives, nose loaders, T-bridges and commuter bridges. ADELTE has installed hundreds of PBBs all around the world. It also provides airports with advanced ground support equipment (GSE), like its PCA inverter, which is designed for cooling and heating stationary aircraft. In heating mode, no electrical resistor is needed as a heat pump is integrated in the system, resulting in much lower electrical power consumption.

ADP INGÉNIERIE

Stand: 1767

Address: Zone Sud Batiment 64, Aeroport D'Orly - Parc Central, Athis-Mons, 91200, France

Tel: +33 1 74 22 7012

Email: jean.philippe.conegero@adp-i.com

Web: www.adp-i.com

ADP Ingénierie, a wholly owned Groupe ADP subsidiary, is a French engineering company that carries out architectural and engineering worldwide activities dealing with design of new airports or existing airport development. Its teams of experts can accompany a project from the initial design to operational stages, and group together multiple skills, from engineering to architecture, studies and the supervision of works. With 400 employees of 40 nationalities working in 16 different countries, ADP Ingénierie is presently carrying out over 130 projects concurrently worldwide.

AEROPARKER

Stand: 1680

Stand Representatives: Jon Keefe, Aldo Furlano, Michaela Neubecker

Address: Chapel Studios, 47-49 Waterloo Road, Stockport, Cheshire, SK1 3BJ, UK

Tel: +44 161 429 1496

Email: sales@aeroparker.com

Web: www.aeroparker.com

AeroParker is the e-commerce platform for airports, enabling the pre-booking of car parking and ancillaries online and via mobile. It is AWS cloud hosted and has been serving airport clients since 2000. AeroParker currently handles millions of transactions per annum under independently verified level 1 PCI DSS compliancy, and the company drives significant new and incremental non-aviation revenues for airports in the UK, Europe and the United States.

AERTEC SOLUTIONS

Stand: 302

Stand Representatives: Alan McGuire

Address: Rossmore Business Village, 10 Inward Way, Unit 4, Ellesmere Port, Chester, CH65 3EY, UK

Tel: +44 1179 226 802

Email: info@aertecsolutions.com

Web: www.aertecsolutions.com

AERTEC Solutions provides engineering and consultancy services for airports, covering every aspect throughout the entire airport lifecycle (conception, planning, and design and operation). The company is dedicated to the aeronautical facet of an airport. Its project references cover more than 130 airports across 40 countries on five continents. It is the most aeronautical of airport engineering and consultancy firms, with offices in the UK, France, Spain, USA and Colombia, and a workforce of more than 550 aeronautical professionals who are the foundation on which the company's track record in the airport sector is built.

AIQ CONSULTING

Stand: 302

Stand Representatives: Olivia Neale

Address: World Business Centre, 1 Newall Road, London Heathrow Airport, Hounslow, TW6 2RE, UK

Tel: +44 203 5989124

Email: hello@aiqconsulting.com

Web: www.aiqconsulting.com

AIQ Consulting is the trusted partner in airport consultancy, working worldwide with airport owners, operators, airlines, handlers, etc. The company realises capacity and optimises operational efficiency. With its practical attitude, data modelling expertise and intelligent designs, it creates simple, cost-effective solutions. The company's in-house holistic demand, capacity and simulation tool TransvisionAiR combines flight, passenger, baggage and vehicle flows in a single model. This bespoke tool and others like SIM3D allows it to rapidly adapt to or solve requirements not previously identified. Visit Stand 302 to hear about its recent projects at LHR, HYD, LBA, LGW, SYD and NRT.

AIRPORT 20/20

Stand: 203

Stand Representatives: Ilya Burkin, Magnus Bojlert

Address: C/o Gentrack Group Ltd, 203 Eversholt Street, London, NW1 1BU, UK

Tel: +44 208 1734 047

Email: ampreets@gentrack.com

Web: www.airport2020.com

Airport 20/20, now part of the Veovo Predictive Collaboration Platform, is designed for seamless data exchange, real-time insight and complete billing flexibility. Airport 20/20 is a fully integrated airport operations and revenue management suite. Over 80 airports around the world use Airport 20/20 to run efficient operations, improve flight turnarounds and support rapid growth.

AIRPORT LOUNGE DEVELOPMENT

Stand: 1685

Stand Representatives: Lucie Medlin, Errol McGlothan, Jonathan French

Address: Cutlers Exchange, 123 Houndsditch, London, EC3A 7BU, UK

Tel: +44 203 725 0899

Email: lucie.medlin@airportlounge.dev.com

Web: www.airportlounge.dev.com

Airport Lounge Development, part of the Collinson Group, is an expert lounge solution provider for airports and airlines. Airport Lounge Development can help to increase revenue and efficiencies, add lounges to your network for your premium customers, help to renovate an existing lounge or utilise an empty space. With preferred access to the Priority Pass network of frequent flyers, Airport Lounge Development is uniquely placed to deliver immediate substantial guest volumes to lounges globally. Airport Lounge Development has 18 lounges in its current network, and is positioned to be the preferred lounge partner of airlines and airports globally.

AIRPORT PASSENGER SERVICES - SPAIN SL

Stand: 1420

Stand Representatives: Diego Yamamoto Ruiz

Address: Carrer Del Coneixement 4, Gava, Barcelona, 08850, Spain

Tel: +34 933 721 724

Email: diegoyamamoto@aps-spain.aero

Web: www.aps-spain.aero/

APS-Spain is the technological partner in the GAPS (Global Airport Passenger Services) corporate group headquartered in Geneva, Switzerland. The company is responsible for the software development and manufacture of high-tech airport luggage trolley solutions, locating its main performance centre facilities in Barcelona. As an expert in airport luggage trolley management with a deep understanding of the airport environment and extensive experience in the field, APS-Spain offers full trolley management services, luggage trolley dispensing systems (SKYKART), premium porter services and luggage trolley tracking systems (KARTRAK) among other services.

AIRPORT RESEARCH CENTER GMBH

Stand: 1302

Stand Representatives: Michael Laubrock, Uta Kohse, Raimo Jacobson

Address: Bismarckstr. 61, Aachen, D-52066, Germany

Tel: +49 241 168 4328

Email: uta.kohse@arc-aachen.de

Web: www.arc-aachen.de

Airport Research Centre GmbH (ARC) is a leading global provider of professional airport planning and decision support, consulting services and products, optimising investments and reducing operational costs. With the CAST Airport Software Suite, ARC provides a unique simulation, allocation and optimisation environment, covering terminal, airside and ground handling, including all corresponding resources and processes. This year in focus: CAST Stand Allocation and CAST Express are providing scenario-based capacity planning, real-time forecasts and resource allocation. Worldwide partners including IATA, Eurocontrol, Fraport and Airbus are cooperating with ARC in projects like LoS assessments, performance-based airport management and simulation-based airport optimisation.

AIRPORT-SUPPLIERS.COM

Stand: 1790

Stand Representatives: Lloyd Richman, Sean Lyall, Ashley Wreford, Ryan Berner

Address: RBS Global Media Ltd, Unit 25, Chitterley Business Centre, Sliverton, Exeter, EX5 4DB, UK

Tel: +44 1392 861 919

Fax: +44 1392 860 842

Email: lr@rbsglobalmedia.com

Web: www.rbsglobalmedia.com

Airport-Suppliers.com is the global airport industry's number one meeting place for operators, vendors, airlines, authorities, ground handlers, contractors, consultants and system integrators. The portal encompasses all aspects of airport equipment, technology, design and services and is currently receiving an average of 65,000 hits monthly, making it the world's premier airport B2B website.

AIRPORTS INTERNATIONAL

Stand: 940

Stand Representatives: James Farrell, Brodie Baxter, Adam Lawes, Tom Allett

Address: Units 1-4 Gwash Way Industrial Estate, Ryhall Road, Stamford, Lincolnshire, PE9 1XP, UK

Tel: +44 1780 755 131

Fax: +44 1780 751 323

Email: julie.lawson@keypublishing.com

Web: www.keypublishing.com

Published nine times a year, Airports International offers a lively mix of features covering the construction, finance and management of the world's most important airport development projects, as well as providing information on the technology that makes them tick. Regular industry reports analyse the current airport issues and provide well-researched information to aid the decision-making process.

AISLELABS INC

Stand: 1657

Stand Representatives: Nilesh Bansal

Address: 111 Berkeley St, Toronto, Ontario, M5A 2W8, Canada

Tel: +1 647 557 3510

Web: www.aislelabs.com

Aislelabs Flow offers the world's most advanced enterprise-grade wi-fi location analytics platform. The company helps airports understand the end-to-end passenger journey from kerb to gate. Flow utilises a powerful prediction engine to forecast delays based on current operations, real-time flight schedule, and external conditions like weather and traffic. This allows airports to visualise lead curves for arrival and departure, adjust staffing based on passenger volume, track assets, and boost sales by reducing bottlenecks. Flow even integrates with operational systems, including FIDS / AODB, sensors, traffic counting systems, cameras, and more. Unlock the power of big data and make informed decisions with Aislelabs products.

ALFYMA

Stand: 920

Stand Representatives: David Da Silva

Address: 122 Rue Des Cerisiers, ZI De Sainte Apoline, Plaisir, 783 70, France

Tel: +33 1 30 54 23 61

Email: stania.pigean@alfyma.fr

Web: www.alfyma.fr

Alfyma provides complete baggage processing systems including HBS, standard 3 EDS integration and checkpoint solution TRS lines for French and international customers. Alfyma coordinates its teams to offer reliable, competitive solutions and thus ensures the optimisation of airport facilities. Alfyma focuses its expertise to offer its customers complete service solutions: from the design phase to the installation and commissioning of your system. Alfyma also provides maintenance services for its installations: check-in, belt conveyors, roller tables, pushers, carousels or curtains, fire doors, etc. Whatever the installation, Alfyma offers global experience allowing you to work with absolute peace of mind.

ALSTEF AUTOMATION SA

Stand: 320

Stand Representatives: Philippe Hamon

Address: 104 Bld De La Salle, BP 9018 Boigny Sur Bionne, Orleans, Cedex 9, F-45963, France

Tel: +33 238 784 200

Fax: +33 238 784 201

Email: info.alstef@alstef.com

Web: www.alstef.com

Alstef, expert in materials handling, designs innovative, efficient and sustainable solutions for airports. From check-in desks to carousels for delivering bags, Alstef offers a wide range of baggage handling systems. Alstef has developed a new concept of bag centring for high throughputs: BAGXenter. This enables the position and orientation of the bag on the belt to be checked before the bag is introduced into the screening machine. Each BAGXenter system has a capacity of 1,200 bags per hour, as the different steps are executed without slowing bag flow and thus throughput is not disturbed.

AMADEUS IT GROUP SA

Stand: 301

Address: Salvador de Madariaga 1, Madrid, 28027, Spain

Tel: +34 911 772 354

Email: michelle.ginman@amadeus.com

Web: www.amadeus.com/airport

For over 30 years, Amadeus has driven the travel industry forward. In 2011, the company entered the airport IT arena to deliver a new approach to airport systems and passenger processing. Today, those systems, such as the innovative Airport Common Use System (ACUS) and Altéa for ground handlers, are used worldwide. As of 2018, Amadeus now services the airport and ground handling IT needs of 129 airports, 34 airlines and 113 ground handlers across the globe. On display at the Amadeus exhibition stand 301 will be a range of solutions from the company's passenger processing and airport management suites, demoed by industry experts.

AMORPH SYSTEMS GMBH

Stand: 530

Stand Representatives: Andreas Hofmann, Silke Frauenhoffer

Address: Handwerkstrasse 29, Stuttgart, 70565, Germany

Tel: +49 711 672 9122

Fax: +49 711 2295 4593

Email: andreas.hofmann@amorphsys.com

Web: www.amorphsys.com

"Now" is too late! AMORPH.aero solutions forecast passenger flow accurately and predict airport traffic. From capacity planning to daily operations, the AMORPH.aero platform for real-time terminal operations management identifies bottlenecks and prevents high waiting times at checkpoints. Combining data from various sources, AMORPH.aero creates valuable insights about passenger behaviour and enables airport operators to improve their operations and services with this knowledge. Airports and airlines can save money by optimising staff allocation and increase their revenue by increasing capacity, reducing waiting times and focusing on the passengers' needs.

ANALOGIC

Stand: 415

Stand Representatives: Jon Stone, Andrew Goldsmith

Address: 8 Centennial Dr, Peabody, MA, 01960, USA

Tel: +45 978 326 4000

Web: www.analogic.com

For over 20 years, Analogic Corporation has provided aviation security solutions to airports, airlines and governments worldwide. Analogic's latest innovation is the ConneCT Checkpoint Security System. Designed to screen carry-on or cabin baggage and to allow passengers to keep their liquids and personal electronics in their bag, the ConneCT uses advanced 3D computed tomography (CT) imaging and proprietary threat detection software to improve security, increase passenger throughput and reduce airport costs.

ANTON AIR SUPPORT BV

Stand: 103

Stand Representatives: Dirk Pepping, Raymond van Halm

Address: Tocht 9, Obdam, 1713 GP, Netherlands

Tel: +31 226 216 006

Fax: +31 625 711451

Email: d.pepping@antongroep.nl

Web: www.antongroep.nl

Anton Air Support installs, inspects, refurbishes and maintains passenger boarding bridges (PBBs) at all airports. Anton Air Support's expertise ranges from steel construction to electrical installation and the corresponding operation, instruction and training, as well as the transportation of PBBs. In addition to PBBs, Anton Air Support is the point of contact for other airport installations all over the world. The company additionally provides support for assembling and upgrading PBBs with your own team. Is there a malfunction or do you want to request a second opinion? Anton Air Support gives independent advice and provides 24/7 service.

AOE GMBH

Stand: 1818

Stand Representatives: Steven Bailey, Kian Gould, Manuel Heidler, Adil Raihani

Address: Kirchgasse 6, Wiesbaden, 65185, Germany

Tel: +49 612 270 7070

Fax: +49 612 270 707 199

Email: sales@aoe.com

Web: www.aoe.com

AOE and its global team of over 250 people in five countries is a leading provider of digital transformation and omnichannel e-commerce implementations based on enterprise open-source technologies. It has established its name as a leading provider for airport e-commerce solutions. AOE is responsible for the world's leading omnichannel travel e-commerce platforms at Frankfurt Airport, Heathrow Airport and Auckland Airport. With its headquarters in Frankfurt and offices in San Francisco, Zurich, Dubai and Hong Kong, AOE has handled hundreds of implementations for major global corporations, such as Frankfurt Airport, Lufthansa, Cisco Systems, Deutsche Telekom, Bosch, Sony and Commerzbank.

ARCHITECTURAL GLASS ARTWORKS LIMITED

Stand: 302

Stand Representatives: Andrew Moor

Address: 14 Chamberlain Street, London, NW1 8XB, UK

Tel: +44 207 586 8181

Email: andrew@andrewmoor.co.uk

Architectural Glass Artworks Limited designs, manufactures and installs glass artworks in buildings. The company acts as art consultant, creating proposals for how and where glass can be used to add to the overall experience of the airport. This is to give the airport a local brand and flavour and to enhance the entire experience of arriving and departing from the airport. Glass is used throughout airports, so it provides the perfect canvas for art, as well as potentially helping to reduce solar gain and glare.

ARCONAS

Stand: 900

Stand Representatives: Lynn Gordon, Farzad Vafajoo, Pablo Reich, Dan Nussbaum

Address: 5700 Keaton Crescent, Mississauga, Ontario, L5R 3H5, Canada

Tel: +1 905 272 0727 x312

Email: lgordon@arconas.com

Web: www.arconas.com

Arconas is dedicated to improving the quality and design of airport furniture and has completed over 350 airport installations worldwide. Arconas is the official seating standard for major carriers including American and Southwest Airlines and is installed in major hubs such as DFW, BOS, ORD, JFK, DEN, HOU, LAX, FLL and GRU. Arconas's award-winning, high-performance seating lines, power solutions and waste containments are designed to the highest standards of durability, comfort and safety. The company is committed to creating positive experiences that accommodate travellers' and terminal operators' needs and raise the value of public spaces.

ARIANEGROUP

Stand: 1303

Stand Representatives: Maria Manfredonia

Address: 7/11, Quai André Citroën, Paris, 75015, France

Tel: +33 1 39 06 64 67

Email: maria.manfredonia@ariane.group

Web: www.ariane.group

Since 2009, ArianeGroup has developed its air traffic management portfolio as a dedicated activity. Within the SESAR project and with the support of Eurocontrol, ArianeGroup has been promoting an airport architecture management integrated solution called ARAMIS. ARAMIS is fully coherent with the SESAR total airport operational management concepts (TAM, AOP, A-CDM) and is a system that provides a holistic view of an airport, based on a flexible framework tailored to the growing needs of airports. ARAMIS enhances airport performance management and monitoring, reinforcing information sharing and collaborative processes among airport stakeholders and integrating airside and landside operations.

ARUP

Stand: 120

Stand Representatives: Ian Taylor, Jenny Buckley, Conor Hoey, Richard Matthews, Joseph Sweet

Address: Ove Arup and Partners International Ltd, 13 Fitzroy Street, London, W1T 4BQ, UK

Tel: +44 20 7636 1531

Fax: +44 20 7755 3716

Email: aviation@arup.com

Web: www.arup.com/expertise/industry/aviation

Airlines, airport operators, developers and regulators around the world come to Arup for joined-up thinking to balance their competing issues: everything from transaction advice to operational readiness. Arup has global expertise to put forward-thinking strategy, design and technology into practice, whether advising on airport planning, policy or finance, or delivering smarter airport infrastructure and operations, regardless of project size or scope. Working collaboratively with its clients, Arup's solutions deliver significant business benefits by balancing the needs of people, processes, technology and environment. Meet Arup's global executive team and view the company's showcase on improving airport efficiency and the future-ready airport.

ATKINS - MEMBER OF THE SNC-LAVALIN GROUP

Stand: 302

Stand Representatives: Steve Tasker, Phil Tarrant, Dan Jones, Rob Jenner, Ruairi Martin

Address: Woodcote Grove, Ashley Road, Epsom, Surrey, KT18 5BW, UK

Tel: +44 20 7121 2000

Email: info@atkinsglobal.com

Web: www.atkinsglobal.com

SNC-Lavalin's Atkins business is one of the world's most respected design, engineering and project management consultancies. Working through trusted long-term partnerships, Atkins helps its clients create world-class airports, making air travel safer, easier and faster. Atkins works on developments of all scales – from general aviation terminals to infrastructure at the largest global hubs. With a commitment to technical innovation and service excellence, Atkins engages with its clients to introduce them to new ways of thinking and new ideas within a new digital culture.

ATLASIED

Stand: 1150

Stand Representatives: Dean Standing, Olivier Savoie, Mattias Winther

Address: 4545 E Baseline Road, Phoenix, Arizona, 85042, USA

Tel: +1 800 876 3333

Email: support@atlasied.com

Web: www.atlasied.com

AtlasIED is a global electronics manufacturer providing comprehensive audio solutions for commercial business environments. AtlasIED saves organisations time and money with effective use of audio communication systems, while also helping to enhance safety using its industry-leading mass notification, life safety, VoIP and speech privacy systems. AtlasIED offers an assortment of EN54 certified solutions that are scalable, allowing them to be used in a variety of industry deployments. AtlasIED's technologies seamlessly interface and integrate into existing and future analogue and IT-based infrastructures.

AVERY DENNISON

Stand: 1510

Stand Representatives: Mark Summers

Address: 8080 Norton Parkway, Mentor, OH 44060, USA

Tel: +1 770 965 0807

Email: rfid.info@averydennison.com

Web: www.rfid.averydennison.com

Avery Dennison is a global leader in radio frequency identification (RFID)-enabled solutions with more than 800 patents, and applications and global manufacturing capabilities that have produced more than 11 billion RFID tags and labels. Avery Dennison has an industry-leading solution development team that supports customers from business case development to complete solution roll-out.

AVIATION AUTOMATION & CONTROL LIMITED

Stand: 302

Stand Representatives: Mike Connelly

Address: 450 Bath Road, Longford, Heathrow, Middlesex, UB7 0EB, UK

Tel: +44 208 396 4440

Email: mike.c@aac-ltd.com

Web: www.aac-ltd.com

AAC Ltd is an ISO 9001:2015 certified developer and integrator of high-technology systems established by a group of industry-leading software development and project management professionals with a lean, agile and innovative approach to project analysis and integrated delivery. The team at AAC have worked on all aspects of airport controls and monitoring, from passenger link bridges to HVAC, baggage handling systems from check-in to makeup and reclaim and security screening – passenger, baggage and cargo. AAC is able to work from analysis of how system operation can be performed to provide turnkey airport implementations.

AVIATION MEDIA

Stand: 757

Stand Representatives: Jonathan Lee

Address: PO Box 448, Feltham, TW13 9EA, UK
Tel: +44 208 707 2743

Email: jonathan@aviationmedia.aero

Web: www.aviationmedia.aero/

Aviation Media is an independent, business-to-business communications company. It specialises in the production of global aviation magazines, special publications, conferences, exhibitions, events and websites for the global aviation industry. The team has over 40 years of experience in all forms of media. Aviation Media's portfolio of magazine titles includes: ACI World's Airport World and ACI Asia-Pacific Airports Magazine. Aviation Media's event portfolio includes the ACI Airport Economic and Finance Conferences, ACI Europe's Regional Airports Conference and Exhibition, ACI Asia-Pacific's Regional Assembly, SMART Airports and Regions Conference and Exhibition and other SMART Airports events.

AVIAVOX BV

Stand: 1304

Stand Representatives: Johan Godin, Robert Hazeleger

Address: Hoofdweg 848, Hoofddorp, Noord-Holland, 2132 MC, Netherlands

Tel: +31 20 316 0110

Fax: +31 20 316 0115

Email: info@aviavox.com

Web: www.aviavox.com

AviaVox intelligent announcement systems are specifically designed for airports and airlines. With the unique AviaVox phoneme technology, natural announcements can be generated fully automatically in a multitude of languages. AviaVox has intensively studied the information needs of passengers, airports and airlines, and has structured its automatic announcements in such a way that it gives maximum support to the efficiency of passenger flows. As a result, the AviaVox system significantly improves communication between an airport and its passengers, and contributes considerably to a positive customer experience for passengers and airlines.

AVIOVA

Stand: 1590

Stand Representatives: Martin Paintner, Kai Gottschlich, Benjamin Broetzmann, Anna Herms

Address: Mittelstr. 7, Schoenefeld, Brandenburg, 12529, Germany

Tel: +49 30 2000 912 33

Email: info@aviova.com

Web: www.aviova.com

Maximum thrust for your efficiency – as part of the AHS Aviation Handling Services Group, Aviova offers 360° competence in customised IT solutions for passenger handling and operations, as well as extensive know-how in providing DCS support and tailored training for airlines, airports and handling agents all over Europe.

AZINQ LTD

Stand: 302

Stand Representatives: Chris Taylor, Stephen Leigh

Address: Unit 5 Albert Edward House, The Pavilions, Ashton On Ribble, Preston, Lancashire, PR2 2YB, UK

Tel: +44 1772 831876

Email: chris.taylor@azinq.com

Web: www.azinq.com

Azinq is an airport technology consultancy that partners airports with procurement, system integration and implementation services. The team combines a unique blend of technical and airport business expertise with deep knowledge and experience from working with airport technology vendors for many years. Azinq manages tender processes and complex system integrations for many major UK and European airports and is a specialist in enabling efficient connectivity across an airport campus, using modern integration technologies that enable digital innovation. Azinq's airport technology implementation expertise provides major advantages to airports utilising its specialist domain knowledge and methodologies.

BAKER BELLFIELD

Stand: 1765

Stand Representatives: Jamie Baker, Simon Williams, Robert Wilkin

Address: Display House, Hortonwood 7, Telford, Shropshire, TF1 7GP, UK

Tel: +44 1952 677411

Fax: +44 1952 670188

Email: jamie@bakerbellfield.co.uk

Web: www.bakerbellfield.co.uk

Baker Bellfield is a global supplier of airport interior and furniture solutions, including ASIAD-compliant check-in counters and hybrid check-in counters, security preparation (liquid aerosol gels) furniture, security lane cladding, repack areas, wayfinding monoliths and beacons, wall linings, passport control counters, and airside works including retail frontages, gates counters, customer podiums, card reading shelves, VAT counters with anti-bandit glazing screens, and immigration counters with swing gates.

BB COMPUTERTEKNIKK AS

Stand: 1025

Stand Representatives: Marius Brobeck, Rune Thunem, Jorn Askvik, Mike Bikoulis, Jon Erik Skau

Address: Erik Børresens Allé 2, Drammen, 3015, Norway

Tel: +47 922 36 070

Fax: +47 32 84 6739

Email: marius.brobeck@bbc.no

Web: www.bbcairport.com

BBC's self-service solutions are quick, smart and intuitive. With Tagomat BBC has added mobility for increased flexibility, enabling airports to meet passengers' demands for seamless travel. Combining unique flexibility with fast and intuitive SBDs, airports now have the best starting point to improve passenger flows and reduce transaction times for baggage handling. Furthermore, BBC has introduced a combined statistical tool called MyAirport, giving complete overview and the unique ability to track and influence your airport's passenger flows.

BBHS AS

Stand: 1635

Stand Representatives: Erik Andersen, Hans Jernström, Jonas Bargum, Peter Scheuer Jensen

Address: Hovedgaden 451F, Hedehusene, 2640, Denmark

Tel: +45 22 44 49 01

Email: psj@cphi-holding.com

Web: www.bbhs.dk

BBHS is a company driving change in the operating costs of bulk baggage handling and improving the overall passenger experience. To achieve this goal, it works closely with partners who share its vision to make significant changes in baggage handling. BBHS Intelligent Bulk Baggage Handling eliminates 95% of manual lifting and increases the efficiency of baggage carts via the BBHS baggage cart and efficient departure add-on consolidation units and its arrival consolidation units. BBHS can therefore bring previously unseen efficiency and speed to the bulk baggage handling process. BBHS has more than 20 years' aviation, airline and airport experience.

BEUMER GROUP

Stand: 605

Stand Representatives: Klaus Schäfer

Address: PO Pedersens Vej 10, Aarhus N, DK-8200, Denmark

Tel: +45 874 14141

Fax: +45 87 414187

Email: heidi.klit@beumergroup.com

Web: www.beumergroup.com/en/products/airport-baggage-handling-systems

Beumer Group will offer insights into the ultimate baggage handling system for visionary airports with a new and unique solution for self bag drop as well as baggage reclaim on demand. The system also transforms the flow of baggage from a 'push' system into a 'pull' system. The transformation is enabled by the use of dynamic baggage storage and batch building, which significantly increases efficiency by allowing batches of bags to be 'pulled' from storage for speed loading onto ULDs. The system also uses speed loading and automated handling of ULDs and dollies through the use of automated guided vehicles (AGV).

BISLEY

Stand: 1668

Stand Representatives: Robin Bayliss, Onhan Baysoy

Address: Knightway House, Park Street, Bagshot, Surrey, GU19 5AQ, UK

Tel: +44 1276 450074

Email: maria.acostareyes@bisley.com

Web: www.bisley.com

Life may be unpredictable, but one thing you can count on is a Bisley product. Precision engineered and built to last. That's why, when it comes to creating functional spaces, Bisley is the name people turn to for quality they can trust. Although needs and fashions may have changed, how Bisley approaches things hasn't. As a storage specialist, Bisley understands the market and engineers products that meet the needs of modern lifestyles, and deliver great value for every customer.

BLIP SYSTEMS

Stand: 203

Stand Representatives: Peter Knudsen, Preben Andersen, Mads Bo Frederiksen, Claus Hein, Christian Bak

Address: Haekken 2, Vodskov, DK-9310, Denmark

Tel: +45 51 16 85 86

Email: Christian.Carstens@blipsystems.com

Web: www.blipsystems.com

BlipTrack, now part of the Veovo Predictive Collaboration Platform, is designed to optimise all stages of passenger handling and improve commercial areas. From queue and flow measurements and prediction to advanced capacity forecasting, BlipTrack provides airports around the world with detailed insights to effectively scale staffing resources with demand, improve non-aviation revenue, and maintain a high level of passenger service. BlipTrack uses advanced data mining and predictive modelling analytics to provide both real-time and historical context-rich data, which is presented in an intuitive web-based user interface with compelling visualisations.

BNP ASSOCIATES INC

Stand: 602

Stand Representatives: Dave Mecartney, Damien Breier, Benedict Oon, John Whitehead, Eric Miller

Address: 1981 Post Road, Fairfield, Connecticut, 06824, USA

Tel: +1 203 792 3000

britishaviationgroup.co.uk

Web: www.britishaviationgroup.co.uk

The British Aviation Group is the leading representative body for British companies involved in aviation and airport development and operations. The company provides world-class expertise to meet the challenges of the global aviation industry, creating the airports of the future through the power of its network. British Aviation Group is the first port of call for global clients to connect to the full spectrum of British aviation expertise, delivering solutions for airports large and small. British Aviation Group has had amazing success working in over 150 countries and at the 60 largest airports delivering value, efficiency, sustainability and resilience.

BRITISH-IRISH AIRPORTS EXPO

Stand: 302

Stand Representatives: James Howson

Address: 3a Gatwick Metro Centre, Balcombe Road, Horley, Surrey, RH6 9GA, UK

Tel: +44 1293 783 851

Email: jamesh@pps-publications.com

Web: www.airports-expo.com/

The British-Irish Airports Expo is the definitive annual procurement exhibition and airport conference, celebrating a world-respected civil and military airport network and providing a platform for the community to gather, share experiences, do business and strengthen their supply chains. The expo provides an opportunity for all suppliers, from SMEs to multinationals, to demonstrate their expertise and meet buyers from across the region and overseas. The free-to-attend conference, with a day dedicated to export, is a platform for airport CEOs, senior leaders and departmental specialists to discuss industry progress and best practice.

BURRI PUBLIC ELEMENTS AG

Stand: 1030

Stand Representatives: Christoph Schmid

Address: Sägereistrasse 28, Glattbrugg, CH-8152, Switzerland

Tel: +41 44 874 44 22

Email: cschmid@burri.world

Web: www.burri.world

Founded in 1907, Burri has evolved over five generations into a market-leading, full-service provider of equipment for the public space. The range of products and services covers clever and stylish solutions for furniture, barrier systems, waste systems, parking facilities, advertising and information systems, signage and guidance systems, transport technology and lighting. In cooperation with Grimshaw Architects, Burri has developed GEKKO magnetic installation brackets for fast and flexible mounting of signage, cameras, monitors, etc. at airports and other public areas. GEKKO will be presented to the public for the first time at Passenger Terminal EXPO 2018.

CANARD DRONES

Stand: 1418

Stand Representatives: Ana Perez

Address: Avenida Gregorio Peces-Barba, 1 28919 Madrid, Spain

Tel: +34 657 850 475

Email: ana.perez@canarddrones.com

Web: www.canarddrones.com

Canard Drones is a company providing inspection and calibration services of navigational aids (NAVAIDs) using remotely piloted aircraft (drones) instead of manned aircraft. Canard offers an innovative approach that saves time, increases the operational efficiency of airport maintenance and prevents unnecessary runway disruption, being in compliance with international standards and national regulations (certification from DGAC in France). Canard has received 16 international innovation awards, such as AAAE Airport Innovation Forum in Silicon Valley. The team has huge aerospace experience and has performed operations in many airports, mainly in Spain and France.

CART TECHNOLOGY SL

CASPER BV

Stand: 225

Stand Representatives: Heleen Erkamp, David van de Velde

Address: Parklaan 32, Haarlem, 2011KW, Netherlands

Tel: +31 23 515 5112

Email: david@casper.aero

Web: www.casper.aero

Casper is an innovative IT company that specialises in real-time monitoring and analysis tools for airports. It provides integrated solutions for monitoring, analysis and reporting on aircraft movements and noise. Casper's performance management tools increase situational awareness, improve collaboration and support performance monitoring. Combining data from different sources, the company provides essential information for managing the turnaround process. Casper noise solutions monitor noise and flight operations and facilitate noise complaints management. Casper serves its worldwide customers from its headquarters in the Netherlands and its office in Houston, USA.

CASSIOLI SRL

Stand: 1672

Stand Representatives: Valerio Del Giorno, Fabio Centofanti

Address: Loc. Guardavalle, 63, Torrita Di Siena (SI), 53049, Italy

Tel: +39 0577 684511

Fax: +39 0577 686084

Email: vincenzo.campanella@cassioioli.com

Web: www.cassioioli.com

The effective management of transfers and baggage screening is a priority for airports around the world. The baggage must be moved, manipulated and controlled with accuracy, speed and security. Cassioli Airport Division (Cassioli AD) is the answer to this challenge. Check-in systems, inclined or plain carousels for baggage delivery, belt conveyors, integration of stations for x-ray or explosive control, diversion systems, continuous or point-to-point sorters, automatic

warehouses: Cassioli AD is able to offer all the necessary elements for high-speed automated sorting systems. This full range of products enables Cassioli AD to meet the needs of modern airports.

CAVOTEC SVERIGE AB

Stand: 255

Stand Representatives: Anders Wiksborg

Address: Fagerstagatan 5, Spånga, SE-16353, Sweden

Tel: +46 706 762 233

Fax: +46 556 522 22

Email: anders.wiksborg@cavotec.com

Web: www.cavotec.com

Cavotec is a leading ground support equipment (GSE) specialist, engineering a wide range of state-of-the-art systems and services for contact gates, remote aprons and maintenance repair and overhaul (MRO) hangars for commercial and military applications. Cavotec's comprehensive range of systems meets all aircraft requirements including the new aircraft generation (NGA) such as the A380, B787 and A350. Cavotec's innovative solutions include 400Hz and 28VDC ground power units (GPU), pre-conditioned air (PCA) systems, wet services and fuel systems integrated under passenger boarding bridges, as well as in-ground pits and tunnel systems.

CCD DESIGN & ERGONOMICS LTD

Stand: 302

Stand Representatives: Wayne Marques Butler, David Watts

Address: Second Home Spitalfields, Hanbury Street, London, E1 5JL, UK

Tel: +44 20 7593 2900

Email: wayne.marquesbutler@ccd.org.uk

Web: www.designbyccd.com

For 40 years CCD has been using behavioural understanding to help airports deliver premium passenger experiences and operational excellence. CCD uses insights to make different touchpoints in an airport work better and deliver quality experience. CCD designs wayfinding systems to help passengers navigate better. The company's research into user needs helps make airports more accessible, allowing it to deliver operational excellence through designing better control centres and operations. New opportunities are created by developing a holistic strategy for experience and customer service.

Clients include Heathrow Airport, Australian Customs Service, Gatwick Airport, HOK, Luton Airport, LaGuardia Airport, Muscat International Airport, AECOM, Pascall & Watson.

CCM SRL / MATTEO GRASSI SRL

Stand: 1772

Stand Representatives: Massimo Grassi

Address: Via Madonna della Neve 41, Bergamo, 24121, Italy

Tel: +39 02 95367267

Email: info@ccmairports.com

Web: www.ccmairports.com

CCM is a leader in airport interiors. Established in Milan in 1981, the company has delivered over 350 airport projects. The CCM Group includes three distinct companies, providing a full portfolio of products, solutions and services to airports. CCM Airports Equipment is the leading worldwide designer and manufacturer of check-in counters, canopies and signage. Matteograssi is a leading furniture company in the design and supply of seating for concourses and VIP lounges. CCM Technology has developed an innovative hybrid check-in counter that is able to seamlessly provide either traditional agent-assisted check-in or a fully automated self-bag-drop process.

CEIA SPA

Stand: 1775

Stand Representatives: Luca Pitti

Address: Strada Prov. le Di Pesciola 54/g-56, Loc. Viciomaggio, Arezzo, 52041, Italy

Tel: +39 0575 4181

Fax: +39 0575 418 357

Email: infosecurity@ceia-spa.com

Web: www.ceia.net

CEIA is a leading manufacturer of security metal detectors with more than 40 years of experience. CEIA metal detectors for airport security comply with the requirements specified by the competent authorities, providing automatic detection of metal targets/threats over the entire body, even in cavities, and maximum flow rate thanks to unsurpassed discrimination of personal metal belongings. In order to increase the security and throughput of an airport security checkpoint, additional equipment provided by CEIA includes the SAMD Shoe Analyser and the EMA Bottled Liquid Scanner. For cargo screening, CEIA offers a solution that improves the screening of non-metallic cargo.

CHERRY PICKS

Stand: 1661

Stand Representatives: Michael Kerr, Sidney Chun

Address: 16/F - 19/F, 10 Knutsford Terrace, Tsimshatsui, Kowloon, Hong Kong

COGNEX GERMANY INC

Stand: 1315

Stand Representatives: Johnny Mota

Address: Emmy-Noether-Straße 11, Karlsruhe, 76131, Germany

Tel: +49 721 66378 252

Email: cecile.jacquin@cognex.com

Web: www.cognex.com

Cognex Corporation is the world's leading provider of vision systems, vision software, vision sensors and industrial ID readers used in manufacturing automation. Cognex vision helps companies improve product quality, eliminate production errors, lower manufacturing costs and exceed consumer expectations for high-quality products at an affordable price. Typical applications for machine vision include detecting defects, monitoring production lines, guiding assembly robots, and tracking, sorting and identifying parts. Cognex serves an international customer base from offices throughout the Americas, Europe and Asia, through a global network of integration and distribution partners.

COGNITEC SYSTEMS GMBH

Stand: 195

Stand Representatives: Elke Oberg, Mikael Fagerlund

Address: Grossenhainer Str. 101, Dresden, 01127, Germany

Tel: +49 351 862 920

Fax: +49 351 862 9210

Email: info@cognitec.com

Web: www.cognitec.com

Cognitec develops market-leading face recognition technology and applications for enterprise and government customers around the world. Various independent evaluation tests have proved the premier performance of the FaceVACS software. Cognitec's portfolio includes products for facial image database search, recorded video investigation, real-time video screening and people analytics, border control, ICAO-compliant photo capturing and facial image quality assessment. Corporate headquarters are in Dresden, Germany; other offices are in Rockland, MA, USA and Sydney, Australia.

COMBITECH AB

Stand: 255

Stand Representatives: Jens Redeborn, Hans Carlson, Magnus Johansson

Address: Universitetsvägen 14, Linköping, 58015, Sweden

Tel: +46 734 183 877

Email: jens.redeborn@combitech.se

Web: www.combitech.se

Combitech is an independent technical consulting company, part of the Saab AB defence and security group. The company has a Nordic base, with more than 1,900 qualified consultants in Sweden, Norway, Finland and Denmark, but also works with clients internationally. Combitech offers high delivery capacity and a wide range of specialist skills and concepts, including cost-effective solutions such as integrated weather and ATM information solutions. Combitech's range of skills within air traffic helps aviation authorities, airports and the aviation industry create conditions for greater efficiency, availability and safety. Combitech is the leading provider when it concerns digitisation and cybersecurity.

CONCESSIONAIRE ANALYZER+

Stand: 203

Stand Representatives: Rebecca Calleja, John de Giorgio, Perry Graham

Address: C/o CA Plus Ltd, SkyParks Business Centre, Malta International Airport, Luqa, LQA4000, Malta

Tel: +356 213 19 977

Email: info@concessionaireanalyzer.com

Web: www.concessionaireanalyzer.com

Concessionaire Analyzer+ (CA+), now part of the Veovo Predictive Collaboration Platform, delivers unprecedented insight across the commercial operations lifecycle. CA+ is a groundbreaking revenue maximisation software for controlling, managing and boosting airport non-aeronautical revenues. It provides facilities to manage concession and property contracts, automate billing and capture detailed sales data, and incorporates a business intelligence and reporting platform that enables airports to obtain insights into their sales patterns to boost revenues and performance.

CONFIDEX LTD

Stand: 835

Stand Representatives: Paul Broekhuizen

Address: Lumpeenkatu 6, Tampere, FI-33900, Finland

Tel: +358 10 4244 100

Fax: +358 10 4244 110

Email: contact.myvia@confidex.com

Web: www.confidex.com

Is a great travel experience a passion of yours? Get introduced to MYVIA by Confidex, the platform for airports passionate about the customer experience. Confidex takes personalised travel to a new level by using predictive intelligence and improving operational efficiency. Travellers benefit from contextual information and accurate indoor navigation given by the MYVIA platform, which helps them find the gates, facilities and services they need, from their actual location, in a stress-free way. Confidex enables airport operators to improve the passenger experience and monetise passenger interactions while optimising operations.

COPENHAGEN OPTIMIZATION APS

Stand: 1135

Stand Representatives: Sarah F Procter, Kasper D Hounsgaard, Tor F Justesen

Address: Livjaergade 17B, 1TV, Copenhagen, DK2100, Denmark

Tel: +45 309 146 79

Web: www.copopt.com

Copenhagen Optimization has become a thought leader in the field of airport operations planning and passenger experience by combining the academic discipline of data research with hands-on airport operations experience in numerous airports around the world. Copenhagen Optimization has introduced Better Airport, a cloud-based platform for planning covering the full planning horizon and enabling airports to do capacity planning, budgeting and operational planning using one common platform. Visit Copenhagen Optimization at Stand 1135 to see a live demonstration of Better Airport, and for an opportunity to discuss the benefits your organisation can realise.

COWI

Stand: 1740

Stand Representatives: Karen Hanne Petersen, Ejner Christensen, Yngvar Sundsfjord

Address: Parallelvej 2, Kongens Lyngby, 2800, Denmark

Tel: +45 5640 0000

Email: ech@cowi.com

Web: www.cowi.com

Cowi, a leading airport and aviation consultant, understands its customers have different needs and it has undertaken projects for state-owned airports, privatised airports, airlines, airport investors and contractors. More than 600 airport projects worldwide form the basis of the company's experience and services in airport planning, design, transaction advisory services, environmental management and construction management. Cowi has 6,400 employees who provide state-of-the-art services within the fields of engineering, environmental science and economics. This means that Cowi covers all aspects of even the most complex and multidisciplinary airport projects.

CQRTS

Stand: 245

Stand Representatives: Frode Storkaas

Address: Montebelloveien 6b, Oslo, 03 79, Norway

Tel: +47 900 330 09

Email: frode@cqrts.com

Web: www.cqrts.com

CQRTS has developed antimicrobial security trays to stop the spread of germs. The CQRT TRAY has an antimicrobial agent incorporated in the plastic material. This penetrates the cell walls of microorganisms, making them unable to function, grow and reproduce. The antimicrobial agent remains undiminished throughout the lifetime of the tray. Some of the tray models also have a patented rubber lace at the base. This rubber lace increases the friction against the conveyor belt in the x-ray machine, allowing trays to pass through the lead curtains even if empty.

CROWDVISION

Stand: 240

Stand Representatives: Chris Hitching, Stuart Mills

Address: 8th Floor, 6 Mitre Passage, Greenwich, London, SE10 0ER, UK

Tel: +44 20 3040 2315

Email: chris.hitching@crowdvision.com

Web: www.crowdvision.com

CrowdVision is a leading automated passenger analytics and insights company. CrowdVision software shows what is happening to an entire passenger population, in real time. This enables airport operators and their partners to act decisively to increase efficiency and profitability, both in the moment and in the future, while improving the passenger experience. The CrowdVision solution processes live video input from commercial off-the-shelf cameras, and detects pedestrian movements automatically using sophisticated machine learning techniques. CrowdVision outputs live data about everything from flows, queues and wait times to processing times, occupancies and asset utilisation.

CU PHOSCO LIGHTING LTD

Stand: 302

Stand Representatives: Andrew Southgate, Lee Sanderson

Address: Lower Road, Gt Amwell, Ware, SG12 9TA, UK

Tel: +44 1920 860600

Email: a.southgate@cuphosco.co.uk

Web: www.cuphosco.com

Established in 1923, CU Phosco Lighting (formerly known as Concrete Utilities) is the longest-established and premier exterior lighting group in the UK. For 95 years the company has been designing and manufacturing exterior lighting luminaires, floodlights, lighting columns and masts that can be seen on roads and motorways, at airports and ports, and in shopping centres, housing estates and sports stadiums throughout the world. As the market leader in the design, manufacture, installation and maintenance of high mast airport apron lighting, CU Phosco Lighting undertakes contracts at airports worldwide, working closely with numerous large facilities including Heathrow, Manchester, Dubai, Bristol and Abu Dhabi.

CUSTOM SPA

Web: www.dandryer.com

Dan Dryer was one of the very first hand-dryer manufacturers on the market, and has gone on to establish a leading position as a supplier of toilet equipment. The Viking logo is easily recognisable in public toilets all over the world. Many years' experience has led to the company becoming a specialist in the development and production of toilet equipment. Dan Dryer now offers customers a wide range of products, from hand dryers to complete hygiene solutions.

DATALOGIC SRL ITALIAN FILIAL

Stand: 1671

Stand Representatives: Johanna Westling

Address: Kista Science Tower, Kista, SE-164, Sweden

Tel: +46 73 342 10 30

Email: johanna.westling@datalogic.com

Web: www.datalogic.com

To keep travellers moving and tight schedules on time, airports rely on Datalogic data capture solutions. Datalogic imagers, long-range scanners and cameras keep baggage and cargo moving while handheld scanners and mobile computers check boarding passes, track assets, and validate luggage as it is loaded. Dimensioning solutions also support exact cargo and baggage loading.

DERMALOG IDENTIFICATION SYSTEMS GMBH

Stand: 1653

Stand Representatives: Henning Nehse

Address: Mittelweg 120, Hamburg, 20148, Germany

Tel: +49 40 4132270

Fax: +49 40 41322789

Email: lorena.rivasgarcia@dermalog.com

Web: www.dermalog.com

Dermalog Identification Systems GmbH, with head offices in Hamburg, is Germany's biometry pioneer and the largest German manufacturer of biometric devices and systems. One of the shareholders in Dermalog is the state-owned German Bundesdruckerei. Dermalog employs a team of scientists who continuously develop biometric identification systems (so-called AFIS and ABIS systems), including cutting-edge fingerprint scanning devices. The product portfolio is complemented by biometric border control systems, biometric ID cards and passports as well as biometric voting systems. FingerLogin, FingerPayment and FingerBanking are also solutions developed by Dermalog, as are systems for automatic face and iris recognition.

DESKO GMBH

Stand: 418

Stand Representatives: Ulrike Hößl, Darya Basarhina

Address: Gottlieb-Keim-Strasse 56, Bayreuth, D-95448, Germany

Tel: +49 921 79279 0

Fax: +49 921 7927 914

Email: info@desko.com

Web: www.desko.com

At this year's PTE Desko presents its redesigned Cube product line and chrom family. The Cube product platform is the product of choice for reliable barcode and OCR reading in a housing optimised for integration in self-service installations. Another highlight is the NEPTUN chrom keyboard and the IDenty chrom swipe reader, which stand out for their reliable OCR and MSR technology and elegant look while keeping their remarkable feature, the IP54 rating. Live product presentations will be performed during the entire show at Desko's Stand 418.

DIGICON SA

Stand: 308

Stand Representatives: Cauê Dias

Address: Nissin Castiel 640, Gravataí, 94045-420, Brazil

Tel: +55 51 3489 8700

Fax: +55 51 3489 8747

Email: asantos@digicon.com.br

Web: www.digicon.com/br/site/en/index.php

Digicon has been developing solutions for several markets for more than 40 years. The manufacture of access controllers, gates for passenger transport in subways and aerospace components brought Digicon closer to the airport segment. Digicon is investing in passenger flow automation solutions at airports where it successfully began to control passenger boarding during the Olympic Games at RIOgaleão airport. That's why the Passenger Terminal EXPO is such an important opportunity for the company in 2018. Digicon will be happy to present its solutions and it hopes to start conversations with its clients and partners.

DORMAKABA

Stand: 310

Stand Representatives: Thomas Bader

Address: Kaba Gallenschütz GmbH, Nikolaus-Otto-Straße 1, Bühl, 77815, Germany

Tel: +49 7223 286 225

Fax: +49 7223 286 55225

Email: thomas.bader@dormakaba.com

Web: www.dormakaba.com/de

Dormakaba presents the latest exit lane version Orthos PIL-M02. The new modular product features several sensor types for enhanced security, namely detection of wrong way, objects thrown through or objects left in the corridor. Dormakaba also displays Argus HSB-M03, the state-of-the-art solution for automated boarding pass control and automated self-boarding including a face recognition application. In connection with a self-service check-in kiosk featuring a biometric enrolment process, it demonstrates the complete end-to-end passenger process. Dormakaba is a leading developer, manufacturer and distributor of access security products and has long-standing experience in airport access security, namely passenger self-service and staff access.

Web: www.esp.aero

IT support solutions for multinational organisations across the globe. ESP has been providing IT services to the aviation industry for over 25 years, so knows exactly what airports and airlines need from their IT support services. ESP understands the demands of airlines, what airports need to do to accommodate them and the crucial role played by all of the support services within the airport. That's why some of the world's biggest and most successful aviation companies come to ESP for all their IT support needs. Please join ESP for a drink at Stand 1400.

ESP SWEDEN

Stand: 255

Stand Representatives: Leif Pettersson

Address: Kungsörsvägen 60, Arboga, 73247, Sweden

Tel: +46 705 801 243

Email: leif.pettersson@espsweden.se

Web: www.espsweden.se

ESP Sweden is an EASA 145 approved repair facility specialising in gas turbine engines and their accessories. The company was initially organised under the Swedish Ministry of Defence; later it transferred to the Ministry of Industry, where it operated under the name of ScanMotive. The company was then sold to Volvo Aero and later to Patria Osterman Aero. It is now operating as a separate legal entity cooperating with OEMs and strategic machine shops that have enhanced the company's repair capability.

EUROMATE BV

Stand: 1782

Stand Representatives: Sjoerd Gersonius, Lokesh Jain, Gert-Jan Kleinrensink

Address: Minervum 7324, Breda, 4817 ZD, Netherlands

Tel: +31 31 76 5789 553

Email: request@euromate.com

Web: www.euromate.com

Euromate offers complete solutions for your air quality issues. It is launching new Euromate Airport Purifier, a unit designed to give installation flexibility back to architects and terminal designers in regard to restaurant, bistro and lounge locations and the required air extraction/purification. Air cleaners and air purification facilitate offering smoking lounges and smoking cabins and provide a new employee smoking solution.

EXRUPTIVE

Stand: 1635

Stand Representatives: Morten Pankoke, Jesper Vermehren Jensen, Anders Vikke, Helene Ilkjær

Address: Hovedgaden 451 F, Hedehusene, DK-2640, Denmark

Tel: +45 40 45 64 66

Email: mp@exruptive.com

Web: www.exruptive.com

The Exruptive Trolley Security Scanner (ITS) combines an innovative x-ray technology with a never-before-seen method that disrupts the entire way of thinking about airport security scanning. A scanner-compatible trolley creates a stress-free procedure for passengers and increases the security throughput to 450+/hour. The trolley comes with an integrated intelligent tablet (ITS), which provides passengers with features such as push information about flight and gate, boarding time, wayfinding and more. ITS offers extremely accurate wayfinding, personalised commercial offerings, a new advertising platform and business intelligence (big data), which provides new insights into customer behaviour and pax flow.

Since 1945 the products have been strongly present in the living environment in the city surroundings: in public and commercial premises, passenger terminals, housing areas, parks, play and sporting grounds, etc. Today the products are present in 34 countries in Europe, the Middle East and North America. FinBin products are known for their Scandinavian design and are made from the best materials.

FIVES INTRALOGISTICS SPA

Stand: 1560

Stand Representatives: Andrea Bonani

Address: Viale Ticino 2, Lonate Pozzolo, (VA) 21015, Italy

Tel: +39 0331 665111

Fax: +39 0331 301339

Email: fivesintralogistics-it@fivesgroup.com

Web: <http://intralogistics.fivesgroup.com/>
Fives designs and supplies turnkey material handling solutions to meet customers' needs and improve the performance of their installations. For baggage handling systems, Fives proposes automation solutions based on a high-speed linear or circular system for small, medium and large airports. In particular, the GENI-belt BH crossbelt sorter enables a large variety of bags to be sorted with gentle treatment at high speed, thanks to high-friction belts that prevent bags from sliding, jamming or rolling. The main advantages of Fives' material handling solutions are system availability and reliability, fault tolerance, simple user-friendly software, reduced maintenance and energy efficiency.

FJORI LIMITED

Stand: 302

Stand Representatives: Alex Lake, Adam Waddell

Address: The Gridiron Building, One Pancras Square, London, N1C 4AG, UK

Grimshaw is an international architecture firm that specialises in projects of national importance. Although its work spans a broad range of sectors, Grimshaw has particular expertise within the transport sector, providing design leadership to projects with the highest design aspirations and with sustainability at their core, while adhering to strict cost and programme requirements. Grimshaw's portfolio of aviation projects spans 25 years at Heathrow Airport, including the current third runway expansion; Pulkovo Airport in St Petersburg; Zurich Airport; Istanbul New Airport; the redevelopment of JFK Airport in New York; and major new terminal projects in Auckland and Melbourne.

GUANGDONG SHENLING ENVIRONMENTAL SYSTEMS CO LTD

Stand: 435

Stand Representatives: Marco Huang, Catherine Guo

Address: No. 8 Xinglong 10th Rd Machinery Equipment Park, Chencun, Shunde, Foshan, Guangdong, 528313, China

Tel: +86 1392 8228 386

Fax: +86 757 233 533 00

Email: marco@shenling.com

Web: www.shenling.cn

Shenling was established in 1988 with headquarters in Foshan, China. The company is a HVAC equipment manufacturer specialising in customised solutions for industrial and commercial fields. Shenling's pre-conditioned air (PCA) unit has earned a very good reputation and a strong track record over the years, and has attained a major market share in the local market. In addition, Shenling's solutions, which include its packaged evaporative condensing chiller, rooftop air-conditioner, computer room air-conditioner (CRAC), air handling unit, fan coil unit etc., can be tailor made for your specific passenger terminal project.

GUINAULT

Stand: 532

Stand Representatives: Lionel Clermont, Fahima Boubir

Address: PAOS De La Saussaye, 95 Rue Du Rond D'Eau, Saint-Cyr-en-Val, 45590, France

Tel: +33 238 638 400

Fax: +33 238 696 622

Email: info@guinault.com

Web: www.guinault.com

Guinault-Lebrun (GL) is a French-Belgian equipment manufacturer, specialised in aircraft power supply, 400Hz and PCA. Its equipment provides a complete alternative to the use of the APU while the aircraft is on the ground. Among its products, GL offers several solutions: mobile diesel 400Hz ground power units (GPU), air start units (ASU), air cabin heaters, pre-conditioned air units (PCA), etc. Throughout Passenger Terminal EXPO 2018, GL will display its 400Hz static frequency converter and its coil retriever.

GUNNEBO ENTRANCE CONTROL LTD

Stand: 505

Stand Representatives: Henrik Lång, Ailie MacDonald Wilson

Address: Bellbrook Business Park, Uckfield, West Sussex, TN22 1QQ, UK

Tel: +44 1825 746135

Fax: +44 1825 746112

Email: ailie.macdonaldwilson@gunnebo.com

Web: www.gunnebo.com

Gunnebo airport security gates meet national security standards for passenger processing at pre-security, boarding, immigration and baggage reclaim locations. Gunnebo's pre-security gates, immigration gates, boarding gates and anti-return gates help to ensure that travellers spend less time queuing and more time in the commercial areas of the airport. Accredited by authority standards for connection to the CUTE system, Gunnebo's airport security gates help to simplify passenger travel, reduce operating costs and free up staff to allow them to focus on other duties.

HABASIT AG

Stand: 815

Stand Representatives: Craig Kenhart

Address: Power Transmission and Conveyor Belts, Römerstrasse 1, Reinach, CH-4153, Switzerland

Tel: +41 61 715 1515

Fax: +41 61 715 15 55

Email: info@habasit.com

Web: www.habasit.com

Habasit, one of the world's leading belt suppliers for baggage transportation, presents its range of top-quality and energy-saving conveyor belts for airport baggage handling, screening and detection. Habasit's engineers have developed specific solutions for security applications using TPU belts, which feature zero detection interference for all methods of baggage screening, including side and base imaging perspectives. Not only are Habasit belts reliably straight-running with excellent tracking, the non-slip surface friction provides a secure hold for each piece of luggage as it moves through the system. Habasit's low-density belts remain imperceptible to scanners, ensuring optimal x-ray visibility.

HARRIS ORTHOGON GMBH

Stand: 535

Stand Representatives: Stefanie Herrmann, Gotthard Boerger

Address: Hastedter Osterdeich 222, Bremen, 20207, Germany

Tel: +49 4212 012 20

Fax: +49 201 222 999

Email: info.orthogon@harris.com

Web: www.harris-orthogon.com

To be competitive, airports can no longer look only at on-time departures, but need advance arrival flow data and departure harmonisation with ATC too. Harris Orthogon has been pioneering new ways of increasing and optimising capacity in the air traffic domain over three decades. The company's operationally proven IT solutions bridge the airport and the air traffic domain. Now Harris Orthogon has been asked by major airports to solve their airside capacity constraints. Enabling collaboration between stakeholders, Harris Orthogon will showcase new tools focusing on balancing demand and capacity and providing more predictive data to handle the uncertainties of daily airport operation.

HENGSTLER GMBH

Stand: 250

Address: Uhlandstr. 49, Aldingen, 78554, Germany

Tel: +49 7424 89 546

HITZINGER GMBH

Stand: 1580

Stand Representatives: Jochen Philipp, Gunnar Korb, Sebastian Appl

Address: Helmholtzstraße 56, Linz, 4021, Austria

Tel: +43 732 3816 81 266

Fax: +43 732 3816 81 4

Email: brigitte.limberger@hitzinger.at

Web: www.hitzinger.at

Hitzinger is an internationally renowned company for the production of tailored power supplies. It is a leading provider of alternators, gensets, converters, UPS systems and aircraft ground power supplies. Its headquarters is in Linz, Upper Austria. Forward-looking concepts and designs are the basis for all developments. An

outstanding product is the S POWER bridge with cable coil, which was shown at Passenger Terminal EXPO last year. More than 40 agencies worldwide and three Hitzinger subsidiaries in the USA, UK and Singapore guarantee best service and power at the right moment, anywhere, anytime.

HMXW ARKITEKTER AB

Stand: 255

Stand Representatives: Eva Hall

Address: Peter Myndes Backe 12, Stockholm, 11846, Sweden

Tel: +46 855 697 400

Email: eva.hall@hmxw.se

Web: www.hmxw.se

HMXW Architects has more than 30 years' experience in airport architecture. Assignments have included early investigations, programme work and feasibility studies and numerous completed projects at Bromma, Arlanda and Sturup airports, ranging from interior design through to complete terminal buildings. Recently, HMXW Architects has realised several works at Bromma Airport with a newly constructed arrival terminal and operating facilities. The company is well acquainted with the complexities associated with airport design, whether they concern regulations, safety and security aspects or other design issues. HMXW Architects' projects concern spaces in and around airport terminals as well as landside projects relating to development and commercial maximisation.

HONG KONG INTERNATIONAL AIRPORT

Stand: 105

Stand Representatives: Chris Chan, Tommy Lai, Debbie Poon

Address: HKIA Tower, 1 Sky Plaza Road, Hong Kong International Airport, Lantau, Hong Kong

Tel: +852 21887111

Web: www.hongkongairport.com

Hong Kong International Airport (HKIA), operated and developed by the Airport Authority Hong Kong, is one of the leading and busiest airports in the world. In 2017, HKIA handled 72.9 million passengers, over 5 million tonnes of air cargo and airmail and over 420,000 flight movements. It is a regional and international aviation hub, connecting to 220 destinations worldwide through around 1,200 daily flights by over 100 airlines. HKIA actively adopts new technologies

to enhance operational efficiencies and ensure a pleasant journey for its passengers. A series of technological innovations will be showcased on HKIA's stand.

HUAWEI ENTERPRISE BUSINESS GROUP

Stand: 1810

Stand Representatives: Ziyu Wu

Address: Area H2-F1A-03, Bantian, Longgang District, Shenzhen, 518129, China

Tel: +86 755 285 60888

Email: raozhaoxia@huawei.com

Web: http://e.huawei.com

Huawei is a leading global information and communications technology (ICT) solutions provider. Its aim is to enrich life and improve efficiency through a better-connected world, acting as a responsible corporate citizen, innovative enabler for the information society, and collaborative contributor to the industry. Driven by customer-centric innovation and open partnerships, Huawei has established an end-to-end ICT solutions portfolio that gives customers competitive advantages in telecom and enterprise networks, devices and cloud computing. Huawei's 180,000 employees worldwide are committed to creating maximum value for telecom operators, enterprises and consumers. The company's innovative ICT solutions, products and services are used in more than 170 countries and regions, serving over a third of the world's population. Founded in 1987, Huawei is a private company fully owned by its employees. As an ICT leader in the global market, Huawei is working hand in hand with international associations, consultants and partners to provide innovative, differentiated and advanced ICT solutions for the aviation industry.

HUB PERFORMANCE

Stand: 620

Stand Representatives: Jacques Natchia, Stephane Delacroix

Address: 32 Boulevard Robert Thiboust, Serris, Region Parisienne, 77700, France

Tel: +33 185 49 03 40

Fax: +33 19 72 54 91 17

Email: info@hubperformance.com

Web: www.hubperformance.com

Hub Performance provides planning, simulation and emulation solutions. Its goal is to optimise the capacity of airport hubs. The company provides a focus in baggage and cargo handling design and commissioning to save cost and optimise ROI. Hub Performance will provide an insight into how to set up virtual commissioning platforms with Emulate3D controls testing. This year's expo is an opportunity to introduce Hub Performance's new PAX2SIM collaborative web platform for passenger checkpoints, which forecasts demand for airport planners.

HUMAN RECOGNITION SYSTEMS

Stand: 1769

Stand Representatives: Simon Meyer

Address: 25 Innovation Blvd, Liverpool, L7 9PW, UK

Tel: +44 151 254 6976

Email: dan.rennie@hrs.com

Web: www.hrs.com

Human Recognition Systems provides technology solutions to make businesses more safe, secure and efficient. It does this by digitising the identity of people. MFlow: Focusing on the biometric digitisation of passenger identity, MFlow enables a seamless traveller experience through the various airline, airport and authority checkpoints. This provides a personalised experience and informs the passenger about relevant information during their journey. MTrust: The most efficient way to manage your airport security pass applications, MTrust is an ID pass management, vetting and issuance solution, hosted securely online. The system provides certainty of worker identity and streamlines overall airport ID centre performance.

HUMMEL GMBH U. CO KG

Stand: 1625

Stand Representatives: Anna Ratzel, Ralf Kunkel, Uwe Thuerauf, Dennis Jankovsky

Address: Hutwiesenstrasse 20, Magstadt, D-71106, Germany

Tel: +49 7159 402 117

Fax: +49 7159 402 280

Email: aratzel@hummel-print.de

Web: www.hummel-print.de

Hummel is a specialised printing company for the aviation sector, with more than 60 years' experience. The product range covers all requirements for check-in and handling of passengers, luggage and cargo, including boarding passes, baggage tags, interline tags, etc., and solutions for self-service check-in and baggage drop-off. The latest addition to its product range are baggage tags equipped with state-of-the-art RFID inlays. In response to IATA Resolution 753, many airlines and airports are looking to introduce RFID. Benefits include a reduction in the number and cost of mishandled luggage, improved passenger experience and optimised internal handling processes.

I-SEC INTERNATIONAL SECURITY BV

Stand: 1045

Stand Representatives: Daniel Gabriner, Nimrod Sternefeld, David Gabriner, Oleksandr Murov

Address: Walaardt Sacrestraat 425-4, Schiphol-Oost, NL-1117 BM, Netherlands

Tel: +31 20 71 63 424

Email: n.sternefeld@i-sec.com

Web: www.i-sec.com

Looking for a mobile solution to scan large volumes of passengers? In need of a connected mobile application to manage your workforce in operation and HR? Interested in live, operational, day-to-day multi-location resource planning? These are just some of the features I-SEC created to meet its high-security operational demands at several international airports. I-SEC proudly presents the I-SEC Airport Suite: mobile, connected, state-of-the-art solutions for operational planning, manpower management, passenger document scanning and PNR processing. The airport suite consists of four tools that can be implemented independently or side by side.

IATA

Stand: 1520

Stand Representatives: Michal Wielgus

Address: 800 Place Victoria, Montreal, Quebec, H4Z 1M1, Canada

Tel: +1 514 874 0202 x3427

Email: wielgusm@iata.org

Web: www.iata.org

The International Air Transport Association (IATA) is the trade association for the world's airlines, representing some 265 airlines or 83% of total air traffic. IATA's mission is to represent, lead and serve the airline industry. IATA supports many areas of aviation activity and helps formulate industry policy on critical aviation issues including training.

ICM AIRPORT TECHNICS

Stand: 715

Stand Representatives: Michael Sanderson, Richard Dinkelmann

Address: 1/12 Lord Street, The Lakes Business Park, Botany, NSW, 2019, Australia

Tel: +61 2 9695 7200

Email: info@icm.aero

Web: www.icm.aero

As a global leader in self-service baggage solutions, ICM is showcasing two operational CUSS auto bag drop units at Passenger Terminal EXPO 2018. A new series 1 type 2 retrofit unit makes use of an airport's existing infrastructure, conveyors and desks while adding a sophisticated passenger interface console including integrated biometrics and an ADA-compliant tactile keypad. Also on display will be ICM's series 7, demonstrating a total solution self-service bag drop process in replacement form that frees up terminal space. Biometric face-to-passport validation and a secure payment terminal ensure that the series 7 can provide all the services of an agent-manned process.

ICT.AERO

Stand: 440

Stand Representatives: Rami Alhaddad, Mohammed Kettaneh

Address: PO Box 301, Farwaniya, 81014, Kuwait

Tel: +965 2437 2221

Email: rami@ict.aero

Web: www.ict.aero

ICT.Aero specialises in the sourcing and development of airport technology solutions and services for ground handlers, airlines and airports. Its solutions enable digital transformation of customer operations and administrative functions. The portfolio of products includes: electronic workflow (paperless operation), lounge management system, ground handlers OCC system, airport operation management dashboard, fast-track systems, meet-and-greet systems, dispatcher/TRC tablets, and airport e-commerce. ICT is also the operator of the www.fasttrack.aero online marketplace for lounges, fast-track, meet and greet, and VIP services. Contact ICT today, and enquire about its 'no obligation' programme.

ICTS EUROPE

Stand: 510

Stand Representatives: Efrat Thomas

Address: Roissy pôle Le-Dôme, 1, rue de La Haye, BP 12936, 95732 Roissy CDG Cedex, France

Tel: +33 1 48 16 79 03

Fax: +33 1 48 62 95 93

Email: mail@ictseurope.com

Web: www.ictseurope.com

One of world's leading aviation security specialists, ICTS Europe offers a comprehensive portfolio of new-generation security solutions. Join us at stand 510 and let us transform the way you think about check-in and security screening. Introducing:

- **InnerEye** - A revolutionary interface for real-time threat detection using brainwave technology. Our upgraded version includes new Artificial Intelligence features and enhanced Computer Vision capabilities, to further boost screening speed and level of accuracy.
- **Aware** - An interactive training App, designed to guide non-security staff on how to take notice of suspicious signs.
- **Mobi-Check** - Combining check-in capabilities with fully automated document checks, Mobi-Check has proven to reduce check-in processing time by 35%.

IDEMIA

Stand: 422

Stand Representatives: Julie Desormonts, Pierre Bonjour, Adrien Mazaud

Address: 11 Boulevard Galliéni, Issy Les Moulineaux, 92130, France

Web: www.idemia.com

OT-Morpho is now Idemia, the global leader in trusted identities for an increasingly digital world, with the ambition to empower citizens and consumers alike to interact, pay, connect, travel and vote in ways that are now possible in a connected environment. By standing for augmented identity, Idemia reinvents the way we think, produce, use and protect this asset, whether for individuals or for objects. With close to €3bn in revenues and 14,000 employees, Idemia serves clients in 180 countries.

IER

Stand: 205

Stand Representatives: Jean-Luc Rauline, Catherine Kokar

Address: 3 Rue Salomon De Rothschild, Suresnes, Cedex, F-92150, France

Tel: +33 1 41 38 60 00

Email: contact@ier.fr

Web: www.ier.com

IER is a trusted advisor to many airlines and airports in the aviation industry. IER delivers innovative passenger solutions that enhance the passenger experience from arrival at the airport up to the boarding gate and customs arrival, while ensuring optimal operational and security conditions. At PTE 2018 IER will place great emphasis on solutions providing passengers with a memorable airport experience, showcasing new products such as i920 self-service check-in kiosk, i820 hybrid bag drop solution and IER's latest eGate solution for all airport touchpoints. Fly to gate biometric airport solution promises speedy and accurate interaction at every touchpoint, combining self-service with security.

IKUSI SLU

Stand: 1405

Stand Representatives: Albert Algans, Fermín Odriozola

Address: Paseo Miramón 170, San Sebastián, 20014, Spain

Tel: +34 943 44 8800

Email: admon.soluciones@ikusi.com

Web: www.ikusi.com

Ikusi is a renowned IT specialist in the airport market that brings in innovative technological solutions through proprietary development and partner alliances. Ikusi makes operational efficiency and passenger experience a reality thanks to its experience of more than 40 years in the airport business. Ikusi increases the profitability of airport infrastructures by raising process efficiency and non-airport income, while at the same time improving security, strategic planning and the passenger experience. All this is achieved through a process of digitisation and automating key sector processes by integrating solutions that enable access, data capture and relevant data processing in airport activities.

INDRA

Stand: 100

Stand Representatives: Cesar Abel Raymundo, Sergio Pablos, Juan Francisco García López

Address: Avenida De Castilla No. 2, Edificio Kenia, San Fernando De Henares, Madrid, 28830, Spain

Tel: +34 916 273 868

Email: spablos@indra.es

Web: www.indracompany.com

Indra, as a market-leading company in airports and ATM systems powered by its highly skilled IT professionals, covers the full range of systems for airports, operations, security and communications. Indra provides InAIRPORT suite, including InPLAN, the optimal A-CDM solution, InBASE, the enhanced AODB and InSIGHT for passenger experience. Indra, taking advantage of over 90 years' experience, continues to deploy turnkey projects and scalable solutions worldwide from airside to landside, including airport operational control centres, and supporting integration of all airport processes. Indra is committed to making airport operations more efficient every day. Indra is your best technological partner.

INECO

Inmaquip's commitment is permanent and focused on the highest quality standards so that its clients obtain the highest satisfaction, quality and competitive prices. Inmaquip can offer maintenance assistance that includes immediate support 24 hours a day, 365 days a year for any inconvenience that may occur. It can provide installation, structural assembly, maintenance and repairs of all mechanical, electrical and electronic equipment. The maintenance plan includes programmed preventive systems, emergency repairs, special projects, modifications and refurbishing.

INNOVATION TASK FORCE, US TRANSPORTATION SECURITY ADMINISTRATION

Stand: 1145

Stand Representatives: Mara Winn, Roland Hanson, William Hastings, Keith Mueller, Jahnvi Sonthi

Address: 601 12th Street South, Arlington, VA, 22202, USA

Email: jahnav.sonthi@tsa.dhs.gov

The Transportation Security Administration (TSA) prioritises its technology investments based on intelligence concerning terrorist capabilities and intent. To do this, TSA and industry partners must continually adapt and evolve screening technologies, processes and systems, despite the difficulty of simulating the operational environment prior to formal testing. TSA created the Innovation Task Force (ITF) to address these challenges by fostering better integration between TSA and industry vendors. ITF takes a fresh look at the entire transportation security system with an emphasis on security effectiveness and passenger experience, and is responsible for identifying and quickly demonstrating innovative solutions in an operational environment.

INSPIRED SURFACES

Stand: 302

Stand Representatives: Simon Branston, Robert Thompson

Address: Earlstrees Industrial Estate, 26 Brunel Road, Corby, Northants, NN17 4JW, UK

Web: www.intosinteriors.com/en/airports

Intos is a specialist in customised interior furnishing and fitting out. By making interiors in which craftsmanship and intelligence come together, Intos creates inventive work, retail, travel and healthcare environments suitable for all of its users. Intos operates a full service, arranging the total project management from development to manufacturing and installation. Intos Airports has completed hundreds of airport projects worldwide, which makes it an experienced knowledge partner for the airport industry. Intos shapes ideas into practical and unique solutions. By doing so, Intos developed its own space-saving search cabin, transparent dynamic signs, various counter solutions and the UV-scan-based Shoescanner.

IRIS GMBH INFRARED & INTELLIGENT SENSORS

Stand: 760

Stand Representatives: Marie Kuprat, Horst Gerland

Address: Ostendstrasse 1 - 14, Berlin, 12459, Germany

Tel: +49 30 585 8140

Fax: +49 30 585 814 999

Email: marie.kuprat@irisgmbh.de

Web: www.irisgmbh.de

With its IRMA matrix system, the Berlin-based company Iris presents a high-precision solution for mobile and stationary people counting. The measuring principle is based on a matrix of 500 pixels with which the sensor gauges the distance to the object and detects it three-dimensionally.

This is made possible by the infrared Time-of-Flight technology. The presence and the direction of movement of persons within the visual field can be determined with very high accuracy.

Web: www.kusch.com

More than 220 airports worldwide have opted for waiting benches, seat islands and lounge seating from Kusch+Co. These series are specifically designed for airport environments, fulfilling all the requirements with regard to safety, functionality, design, comfort and utility. At Passenger Terminal EXPO, the focus is on Kusch+Co's successful bench series Terminal and 8000, as well as the German Design Award 2018 winner, the bench series 8300 V-Travel, designed by Justus Kolberg. The matching seat islands 8350 V-Travel and the company's newest series, 8600 Lupino, are geared towards lounge and waiting areas.

L3 SECURITY & DETECTION SYSTEMS

Stand: 1110

Stand Representatives: Becky Fane

Address: Astro House, Brants Bridge, Bracknell, Berkshire, RG12 9BG, UK

Tel: +44 1344 477916

Email: becky.fane@l3t.com

Web: www.L3T.com/SDS

L3's ClearScan is the only explosives detection system to pass the new European C3 standard for cabin baggage screening. The EU EDSCB C3 standard achieves a dramatic improvement in threat detection while also imparting a number of operational improvements, with increases to passenger throughput, security and experience. This standard enables passengers to keep electronics and liquids in their carry-on bags, expediting traffic with an enhanced level of security screening, thus allowing for a quicker divest and redress time for passengers. Come see L3 Security & Detection Systems to learn more about it and ClearScan's enhanced detection algorithms and low false alarm rates at Stand 1110.

LANDLEBEN

Tel: +49 7622 695 5

Fax: +49 7622 695 800

Email: info@ac-magnetic.de

Web: www.magnetic-access.com

Air traffic is growing more quickly than any other means of transport. The demands on safety are also increasing. Magnetic Autocontrol is a leading global manufacturer of vehicle barriers, personal barriers and boarding and immigration gates, and has been a successful partner of airport operators and system integrators for many years. Millions of people around the world are passing Magnetic products to access control stations. In addition to its headquarters in Schopfheim in the southern Black Forest, Magnetic is represented worldwide by subsidiaries in Europe, United Arab Emirates, China, Malaysia, Australia, India, USA and Brazil.

MARSHALLAI

Stand: 925

Stand Representatives: Marcus Nordström

Address: Aurakatu 5 A, Turku, 20100, Finland

Tel: +358 50 506 7329

Email: marcus@marshallai.com

Web: http://marshallai.com

MarshallAI is the next-generation video surveillance solution for airports. It analyses video feeds automatically in real time and identifies malicious events: unattended luggage, harmful objects, passengers walking in the wrong direction, etc. The solution enhances the security, frees up resources and brings efficiency, as triggered incidents immediately have a corresponding timestamp and related image. Visit Stand 925 to experience the live demo and learn more about how MarshallAI can improve the operations at your airport.

MATERNA INFORMATION AND COMMUNICATIONS

Stand: 1100

Stand Representatives: Dr Georg Oschmann, Lieselotte Neste, Dominik Mizdrak, Jana Eull

Address: Vosskuhle 37, Dortmund, D-44141, Germany

Tel: +49 231 5599 00

Fax: +49 231 5599100

Email: marketing@materna-ips.com

Web: www.materna-ips.com

More than 70 airports worldwide use Materna's self-service solutions for simplified passenger handling. This year at Passenger Terminal EXPO, Materna will demonstrate the whole passenger journey on the ground in virtual reality. Visitors are invited to explore how the passenger moves from check-in to boarding seamlessly by using the automated solutions from the global industry leader. No matter if an airport uses one- or two-step processes for self baggage drop-off, Materna provides quick and easy retrofit systems as well as greenfield solutions like its flagship product AirGo, which provides a modular product approach. Additional launch: Materna will show its brand-new check-in kiosk.

Address: Smallvollveien 44, Oslo, 0667, Norway

Tel: +47 981 000 00

Email: ole@missingx.com

Web: www.missingx.com

MissingX is a leading and specialised cloud software solution used globally for the efficient and secure management of lost property in airports and aircraft, train stations and trains, hotels and other large hubs for travellers. The solution is currently in use at airports such as Heathrow (UK), Stockholm, Goteborg (SWE), Oslo, Bergen, Torp, Trondheim (NOR), Charles de Gaulle, and Orly (FRA). The system is also used by UK train operators such as Great Western and TransPennine Express, and by Radisson Blu hotels in Norway. MissingX also cooperates with the British Transport Police.

MODI

Stand: 1750

Stand Representatives: Dieter Klawunder, Torsten Klawunder, Andreas Richter, Phillip Hund, Vanessa Klawunder

Address: An Der Höhe 20, Wiehl, 51674, Germany

Tel: +49 2261 91552 0

Fax: +49 2261 91552 39

Email: v.klawunder@modi-gmbh.de

Web: www.modi-gmbh.de

For more than 10 years, Modi has specialised in biometric face and iris recognition products to simplify airport processes. Based on its revolutionary ADOMO technology, Modi has designed its vision of a paperless airport. A seamless biometric 'face on the move' passenger identification instead of boarding pass and ID card handling combines increased security with a more positive traveller experience. Modi's biometric cameras, kiosks and gates are the perfect solution for check-in, baggage drop-off, terminal entrance, security check, passport control and biometric boarding applications. Adaptable biometric hardware and software products can even be used to upgrade existing kiosks and gates.

MOOG FERNAU LIMITED

Stand: 302

Stand Representatives: Peter Minards, Andy Blyth

Address: Airport Executive Park, Luton, LU2 9NY, UK

Tel: +44 1582 748661

Email: pminards@moog.com

Web: www.tarsierfod.com

Moog Tarsier Automatic Runway FOD Detection System. The Moog Tarsier system offers next-level airport runway surveillance. While airports relying on human runway inspection can only guarantee safety for 1% of their flights, Tarsier-equipped airports provide 100% inspection of the runway for all flights – setting a new safety standard. Tarsier's advanced, all-weather-technology radar system guarantees runway inspection even in inclement and harsh weather conditions. Whether operating Tarsier in high temperatures, sandstorms or at airfield that encounter frequent fog, Tarsier is the only runway surface management system that can operate and detect foreign-object debris in zero-visibility conditions.

MONUMENT TRACKER

RAIN RFID connects billions of everyday items to the internet, enabling businesses and consumers to identify, locate, authenticate and engage each item. RAIN tags can be read without line of sight: when a reader is within reach, the tag uses its energy to transmit and receive data. NXP's UCODE RAIN RFID tags make mishandled bags a thing of the past, while building towards a future of higher overall efficiency, lower operating costs, greater security and increased customer satisfaction. The UCODE infrastructure for baggage handling creates a foundation that brings efficiency and savings to other parts of airport operations.

OAG

Stand Representatives: Torbjørn Balstad

Address: Hotellgaten 4, Stjørdal, 7500, Norway

Tel: +47 982 652 25

Fax: +47 406 941 00

Email: torbjorn@safepass.no

Web: www.safe-solutions.no

Safe Solutions offers a mobile rope passenger guiding system that enables efficient and safe passenger flow, increases ground-handling resource efficiency and allows for the underwing boarding of aircraft. The SafePass system is easy to use, robust and designed for the challenging airport industry environment. The product will help save resources due to the removal of wing guards as a result of dual ropes. An orderly system, which SafePass provides, increases customer satisfaction. It also helps

achieve punctuality, cuts the risk of tail-tipping by enabling dual boarding, enables the avoidance of close-proximity boarding and improves safety.

SAMSUNG ELECTRONICS CO LTD

Stand: 700

Stand Representatives: Seoungkyu Kim

Address: 129, Samsung-ro, Yeongtong-gu, Suwon-si, Gyeonggi-do, 443-742, Korea

Web: www.scarabee.com

Tomorrow's airport is a special place. It's a venue where operational and financial efficiency has shifted from being a goal into being a vehicle for achieving something greater. It's where the person who lies at the heart of aviation, the passenger, has an impressive and lasting experience enriching their journey. With this in mind, Scarabee Aviation Group, specialised in facilitating people flows, baggage handling and security checks, aims to inspire airports to look beyond.

SCOTT BROWNRIGG

Stand: 130

Stand Representatives: Johann van Rensburg, Maurice Rosario, Hani Muthir, Tuan Vu, Nuno Patricio

Address: 77 Endell Street, London, WC2H 9DZ, UK

Tel: +44 20 7240 7766

Email: m.rosario@scottbrownrigg.com

Web: www.scottbrownrigg.com

Scott Brownrigg is an international design practice, headquartered in London with design studios across the UK, New York, Singapore and Moscow. As a top 20 UK practice and within the global top 100, it provides masterplanning, architecture and interior design across all major sectors including aviation. As one of the leaders in airport design and delivery, Scott Brownrigg has an extensive portfolio of global award-winning schemes and is currently the lead designer on Istanbul New Airport. In recognising the functional and technical complexities of airport design combined with the physical and cultural contexts, the team deliver efficient, commercially successful airports.

SEIKODO CORP

Stand: 1515

Stand Representatives: Yoji Tanimoto

Address: 4-38 Tsutsui-cho, Higashi-ku, Nagoya, Aichi, 461-0003, Japan

SEMAWORLD

Stand: 1638

Stand Representatives: Michel Rigaud, Charles Laubie

Address: 9 rue de Lens, Nanterre, 92000, France

Tel: +33 619 994 959

Email: michel.rigaud@semaworld.com

Web: www.semaworld.com

Semaworld, the worldwide leader in blast containment, will present security solutions for airports and airlines. The Absolute Shield: an inside or outside blast and ballistic panel or desk for the passenger's protection in case of shooting, car ramming, explosive devices, etc. The absolute shield system can be installed in the passenger hall itself. The Ground Bomb Killer: the first response when suspicious items are identified in the airport. It provides security to passengers and staff, absorbing all the effects of the explosives, and installation is easy and fast. The Aircraft Bomb Killer: the onboard-flight solution for instances where suspicious items are identified.

SENSEC AB

Stand: 720

Stand Representatives: Mathias Svedlund

Address: Söderbyvägen 10, Arlandastad, 195 60, Sweden

Tel: +46 70 540 31 41

Email: mathias.svedlund@sensec.se

Web: www.sensec.se

Sensec has over 35 years of experience in the security industry. The company works with the concept of being a system vendor, where performance, security, service and ensuring profitability for the customer are key words. It has had the confidence to deliver to the aviation industry, nuclear power plants, ports, prisons and customs during these years, and it uses that experience to enhance solutions for customers. Its service department has extensive experience in performing installations, preventive maintenance and corrective maintenance throughout the Nordic countries.

SERVICETEC AIRPORT SERVICES INTERNATIONAL

Stand: 725

Sileather is a pioneer in performance leather made of 100% silicone. Using innovative techniques, Sileather is able to redefine high-performance fabrics through its skilful combination of leather textures and the superior advantages of silicone.

SIMPLEWAY INC

Stand: 1660

Stand Representatives: Petr Otoupal, David Králík, Martin Pala

Address: Na Okraji 335/42, Prague, 162 00, Czech Republic

Tel: +420 245 009 855

Email: customer@simpleway.global

Web: www.simpleway.global

Simpleway software powers flight information display screens and dynamic voice announcements at some of the busiest and best-known airports in the world. For FIDS, it has built software that can display any kind of graphics, from logos to streaming live TV, which is fully customisable and completely hardware neutral. Its beautifully rendered voice announcements are unique too, integrating seamlessly with data feeds and translating those into friendly, dynamic voice announcements in over 45 languages.

SITA

Stand: 500

Stand Representatives: Etienne Van Zuijlen

Address: 26 Chemin De Joinville, BP 31, Geneva, 1216 Cointrin, Switzerland

Tel: +41 227 476 000

Fax: +41 227 476 110

Email: info@sitaaero

Web: www.sita.aero/airports

Sita is the ideal partner for digital transformation. Working with airports globally, Sita digitises processes around baggage tracking, passenger flow and disruption management, transforming services and operations. Its collaborative developments and co-innovations for mobile, biometric and other technologies deliver the 'walkthrough experience' for passengers at airports. Sita unlocks the value of air transport data, providing the intelligence and analysis needed to predict disruptions, smooth passenger flow, track bags and speed up aircraft turnaround. Sita is constantly exploring new technologies including robotics, AI, machine learning, HoloLens and blockchain to deliver the smart airport vision. Quite simply, Sita is making air travel easier.

SITTIG INDUSTRIE-ELEKTRONIK GMBH & CO KG

Stand: 235

Stand Representatives: Thomas Sittig

Address: Goldgewann 4, Frankfurt, 65931, Germany

Tel: +49 69 370 0020

Fax: +49 69 372 035

Email: thomas.sittig@sittig.de

Web: www.sittig.de

Sittig has improved and upgraded PAXGuide, its automatic announcement system. One of the most remarkable features of the upgrade is the ability to add text-to-speech functionality to the automated announcement system. This feature can be used by central announcement personnel to make ad-hoc announcements and can enable gate service personnel to generate announcements without having to call the ever-busy central announcement workplace. Once generated, the announcement can then be verified and processed in accordance with the airport's policy.

SMART FLOWS

Stand: 1215

Stand Representatives: Marie Faucon

Address: 5 Rue Elzevir, Paris, 75003, France

Tel: +33 142 746314

Email: mfaucou@smart-flows.com

Web: www.smart-flows.com

Let AI reveal fruitful customer flow intelligence. Leverage your wi-fi infrastructure (no hardware investment) to monitor the live flow of 100% of your customers at any time and in any place within your airport and get profitable insight for operations, retail and customer experience. With over 1.5 billion pax covered every year in more than 300 locations, Smart Flows' data management platform is used by the most innovative airports in the world.

SMITHS DETECTION

Stand: 720

Stand Representatives: Bettina Meurer

Tel: +49 611 9412 189

Fax: +49 611 9412 816

Email: bettina.meurer@smithsdetection.com

Web: www.smithsdetection.com

Smiths Detection, part of Smiths Group, is a

global leader in threat detection and screening technologies for aviation, ports and borders, urban security and the military. With experience and history over more than 40 years at the frontline, Smiths Detection can deliver the solutions needed to protect society from the threat and illegal passage of explosives, prohibited weapons, contraband, toxic chemicals and narcotics. Smiths Detection's goal is simple – to provide the security, peace of mind and freedom of movement upon which the world depends.

SNBC EUROPE BV

Stand: 1784

Stand Representatives: Robin Hu

Address: Meerheide, Eersel, 5521DX, Netherlands

Tel: +31 497 331 080

Email: robin.hu@snbc-europe.com

Web: www.snbc-europe.com/

SNBC specialises in research and development, production, sales and service of thermal printing and identification, as well as smart systems integration products. The company provides leading products and complete solutions for many industries across the world, and is the only Chinese enterprise that has mastered core design manufacturing technologies for special printers and scanners and that has embarked on large-scale production through independent innovation.

STAXI CORPORATION

Stand: 1435

Stand Representatives: Ron Howard, David

Gallant, Andy Hart, Yanzi Hart, Helen Ford

Address: 120 Jevlan Drive, Unit 4B, Mail Box 7, Woodbridge, ON, L4L 8G3, CANADA

Tel: +1 877 677 8294

Email: davidg@staxi.com

Web: www.staxi.com

Staxi, the transport chair of choice, is seen in most major airports from Atlanta to Singapore. From kerb to gate, Staxi has delivered vastly enhanced passenger flow with safe, comfortable efficiency. Staxi differs from the standard wheelchair in two important ways. It features a unique and innovative safety braking system that can only be operated by an attendant, which gives the passenger optimal safety throughout the terminal. Additionally, the chair does not fold, significantly adding to its strength and making it extremely difficult to steal. Staxi increases economies of scale while providing increased passenger satisfaction.

STRULIK GMBH

Stand: 1555

Stand Representatives: Kenny Neuhäuser, Paul White, Dr Reimund Jäger

Address: Am Alten Viehhof 7, Duisburg, D-47138, Germany

Tel: +49 203 429 460

Fax: +49 203 429 4666

Email: contact@strulik.com

Web: www.strulik.com

Strulik is a specialised supplier of engineered solutions for air diffusion systems in special occupied environments, with more than 25 years' experience. A major area of Strulik's work concerns airport terminals. Being involved at a very early stage of a project, Strulik assists design engineers, architects and contractors in all phases from pre-design to handover. This includes building simulation studies as well as the design and manufacturing of air diffusers. With its generally object-specific and bespoke solutions, Strulik is committed to the highest quality in function and design, and offers a full warranty for the function of each supplied system.

SUGIE SEITO CO LTD

Stand: 1766

Stand Representatives: Shogo Sugie, Tetsuya Shimomura, Junya Saito, Shinichi Tajima, Kento Ikenaga

Address: 1-76, Kamiyama, Taketoyo-cho Chita-gun, Aichi, 470-2387, Japan

Web: www.tecnospa.com

Since 1953, Tecno SpA has been a leading company in the creation of interior architectures for public spaces and work spaces, designing and producing furniture for heavy-traffic areas and offices. Project know-how, attention to the evolution of behaviours, product innovation, ergonomics and digitisation are the foundations of Tecno's expertise in the public seating segment. Over the years, Tecno has supplied seats for major airports, railway and subway stations internationally. At one point or another, all of us travellers of the world will have sat on a Tecno bench at least once.

TEKNIK DOKUM AS

Stand: 1010

Stand Representatives: Cemal Apeligan, Artun Apeligan, Burak Ahrun, Hasan Dogan, Orhan Bakir

Address: Yenibosna Merkez Mah 29 Ekim Cad, No. 47 Bahçelievler, Istanbul, 34197, Turkey

Tel: +90 212 654 7235

Fax: +90 212 652 1997

Email: cemal@teknikdokum.com

Web: www.teknikdokum.com

With its 30 years' experience in metalworking, Teknik Dokum manufactures and supplies quality products for airports, such as tray return systems, motorised belts and roller conveyors, conveyor rollers, and divesting tables used in passenger and luggage control. It also tries to satisfy customers' demands by special designs on request as well as acting as a solution partner in special projects. Due to its modular and flexible design, Teknik's OSTs tray carrying system enables the creation of innovative solutions for airport security checkpoint applications. OSTs can be designed for any kind of x-ray baggage inspection system.

TELAIR INTERNATIONAL AB

Stand: 255

Stand Representatives: Mikk Uudelepp

Address: Porfyrvägen 14, Lund, 22478, Sweden

Tel: +46 733 242 586

Email: sunelarsson0303@gmail.com

Web: www.telair.com

Telair International's RTT LONGREACH belt loader extension is a revolutionary new bolt-on extension to any belt loader used today to bring baggage up to a narrow-body aircraft cargo door. The extension brings the baggage into the cargo bay and, through an integrated motorised lift system, allows a single loader to easily and safely stack or unload bags using just one hand. In conjunction with Telair's Sliding Carpet Loading System, the RTT LONGREACH presents the most efficient way of loading or unloading the longest aircraft. The Telair Speed Loader Cell is a standalone unit for loading passenger bags directly from the baggage sorter into ULDs or baggage carts.

Web: www.teleste.com

Teleste offers an integrated product and service portfolio that makes it possible to build and run a better networked society. With solid industry experience and a passion for innovation, Teleste is a leading international company in broadband, security and information technologies and related services. At Passenger Terminal EXPO 2018, Teleste will showcase its IP video management solution that enables security operators to build a future-proof, easy-to-expand security ecosystem with advanced video and data integration and improved situational awareness. Teleste is listed on Nasdaq Helsinki and its net sales reached 260 MEUR in 2016.

TENSATOR LIMITED

Stand: 1225

Stand Representatives: Adam Walsh

Address: Unit 7, Danbury Court, Linford Wood, Milton Keynes, MK14 6TS, UK

Tel: +44 1908 684656

Email: joanne.turner@tensator.com

Web: www.tensator.com

Tensator offers a wide range of innovative passenger journey solutions that improve efficiencies and increase ROI within airports across the globe. Tensator's portfolio of products includes the world-famous Tensabarrier, queue management products, digital signage solutions, call-forward systems and access controls that work to improve the passenger journey. With Tensator queue management products you can reduce frustration and increase efficiencies by speeding queue flow. Tensator TMP Wall Protection is the most durable and cost-effective wall panelling solution available on the market and will ultimately increase return on investment.

TEXTRON SWEDEN AB - TEXTRON GSE

Stand: 255

Stand Representatives: L G Nilsson

Address: Dalaslingan 5, Trelleborg, 23132, Sweden

Tel: +46 410 140 50

Email: sasales@textron.com

Web: www.textrongse.com

The Textron GSE family of brands represents ground support equipment product lines and service solutions that have served the world's airlines, freight carriers and airports for more than 150 years. The portfolio includes a full line-up of conventional and tow-bar-less pushbacks, baggage tractors, tow tractors, belt loaders, one-man and two-man de-icers, ground power units, air starts and air-conditioning units, offered under the TUG, Douglas, Premier and Safeaero brands. These products are built in world-class manufacturing facilities around the world: Kennesaw, USA; Marinette, USA; Cheltenham, UK; Trelleborg, Sweden; and Wuxi, China.

THALES

Stand: 520

Stand Representatives: Fabrizio Martin

Address: Tour Carpe Diem, 31 Place Des Corolles - CS 20001, Paris La Défense, 92098, France

Tel: +33 1 70 28 38 76

Email: imane.berrada@thalesgroup.com

Web: www.thalesgroup.com

Governments, institutions and large global companies rely on Thales to design and deliver security solutions that protect states, cities and critical infrastructure in an increasingly unpredictable world, with emerging cyber-threats. From helping cities and critical infrastructure such as airports become safer and smarter, to securing global financial markets and protecting sensitive data, to keeping security forces connected on critical missions, Thales ensures integrity of the technologies that keep our world moving, staying one step ahead of all forms of digital threat and enhancing life for all.

THE TRANSPORTATION SECURITY ADMINISTRATION (TSA)

Stand: 1145

Stand Representatives: Mara Winn, Roland Hanson, William Hastings, Keith Mueller, Jahnvi Sonthi

Tel: +1 202 868 3995

The Transportation Security Administration (TSA) prioritizes its technology investments based on intelligence concerning terrorist capabilities and intent. To do this, TSA and industry partners must continually adapt and evolve screening technologies, processes, and systems, despite the difficulty of simulating the operational environment prior to formal testing. TSA created the Innovation Task Force (ITF) to address these challenges by fostering better integration between TSA and industry vendors. ITF takes a fresh look at the entire transportation security system with an emphasis on security effectiveness and passenger experience, and is responsible for identifying and quickly demonstrating innovative solutions in an operational environment.

THYSSENKRUPP AIRPORT SYSTEMS

Stand: 1220

Stand Representatives: Francisco Arqueros, Manfred Link

Address: Pol. Ind. Vega De Baña S/n, Mieres, Asturias, 33682, Spain

Tel: +34 98 544 6820

Email: penelope.trogisch@thyssenkrupp.com

Web: www.thyssenkrupp-elevator.com

ThyssenKrupp Airport Systems is one of the main suppliers of global gate solutions. The company sells, maintains and operates passenger boarding bridges and associated ground support equipment, with over 4,800 units installed at airports worldwide. Its expertise allows it to successfully handle projects no matter their size or characteristics, ranging from one VIP bridge to 143 at the new IGA Istanbul New Airport. At ThyssenKrupp's stand you can live the experience of docking onto an aircraft with the company's virtual-reality HTC glasses.

TOPSYSTEM SYSTEMHAUS GMBH

Stand: 1590

Stand Representatives: Ingo Richter, Thomas Schindewolf

Address: Monnetstr. 24, Wuerselen, 52146, Germany

Tel: +49 240 546 700

Fax: +49 240 546 7010

Email: aviation@topsystem.de

Web: www.topsystem.aero

Topsystem GmbH has been developing information systems for the branches of aviation and logistics since 1995. Its aviation department provides airports, ground handling companies, airlines and cargo handlers worldwide with IT solutions for supporting and controlling commercial and operational processes. All Topsystem solutions are web-based and multi-station capable. The software modules cover seasonal and daily flight scheduling, contract management, service planning and recording, billing, personnel planning, cargo management, and much more. With software in operation at more than 130 stations worldwide, Topsystem GmbH is one of the worldwide market leaders in IT systems for the aviation business.

TOWER CHARGE

Stand: 1565

Stand Representatives: Rene Roder, Alexis Boguet, Mattias Karlsson

Address: 16 Avenue Graham Bell - Bâtiment D, Bussy Saint Georges, 77164, France

Tel: +33 160 272 020

Email: info@towercharge.fr

Web: www.towercharge.fr

Smartphones and other connected objects have become extensions of ourselves without which it has become difficult to function normally. Tower Charge was born out of this observation and the desire to propose a simple and innovative solution to this problem. Tower Charge is proud to have won the confidence of many major accounts like Sodexo and Auchan. Thanks to its work with these major players, Tower Charge decided to expand its offer in 2017. The Tower Charge range is today the widest on the market and can meet any type of need with standalone or mobile solutions.

TRACKITME

Stand: 755

Address: Office No 303, Building No 8, Dubai Outsource Zone, Dubai, United Arab Emirates

Tel: +971 52 9066 890

Email: sandeep@trackitme.com

Web: www.trackitme.com

EnTrackBag from TrackIT Solutions is the world's leading inbound suspect baggage tracking system for airports. Multiple international airports in the Middle East have successfully adopted EnTrackBag. EnTrackBag provides unparalleled ability to track the bag at several key locations in the terminal after in-line screening and before it provides graded alerts for the customs inspectors at the customs exit. The EnTrackBag system is integrated with major BHS and screening system providers to provide x-ray images of the suspect bag at the customs exit. EnTrackBag can also provide the physical bag image and passenger information along with video clips, and can build suspect passenger databases.

TRANSOFT SOLUTIONS (AVIATION) AB

Stand: 155

Stand Representatives: Anna Pålhlsson, Yorick Keeven

Address: Krokslätts Fabriker 30, Mölndal, 431 37, Sweden

Tel: +46 31 60 43 60

Email: anna.pahlsson@transoftsolutions.com

Web: www.transoftsolutions.com

Based in Gothenburg, Sweden, Transoft's airside operations group produces software that is utilised at over 80% of the world's top 30 busiest airports (ACI), 97% of the top 100 North American AEC firms (ENR), and 78% of the top European engineering and architectural groups (Swedish Federation of Consulting Engineers and Architects). Transoft offers the full suite of aviation simulation software. The dynamic nature of terminal and airside operations means that airport planners must be constantly aware of their operating environment, and how changes to it could affect their facility's safety and productivity. Aviation simulation software is therefore a critical tool for airport planners.

TURNER & TOWNSEND

Stand: 302

Stand Representatives: David Fox, Astrid Boumans, Tom Topolski

Address: One New Change, London, EC4M 9AF, UK

Tel: +44 207 759 8469

Email: maxine.mackay@turntown.co.uk

Web: www.turnerandtowntsend.com

Turner & Townsend is an independent professional services company specialising in programme management, project management, cost management and consulting across the real estate, infrastructure and natural resources sectors. With 104 offices in 44 countries, Turner & Townsend draws upon its extensive global and industry experience to manage risk while maximising value and performance during the construction and operation of its clients' assets. For the past decade, Turner & Townsend has been supporting clients on some of the most complex aviation projects across the globe, adopting innovative tools and techniques to drive productivity and performance.

U-FIRST SRL

Stand: 140

Stand Representatives: Simona Panto, Sara Stefania Filippi

Address: Via Giovanni Amendola 46, Rome, 00 185, Italy

Tel: +39 06 8781 1672

Email: simona@ufirst.com

Web: www.ufirst.com

uFirst is the only app that gives you back time. Designed to improve the customer experience, uFirst employs the latest technologies to minimise the amount of time travellers waste in line. The app is available on Android and iOS and improves the traveller journey by offering a great range of solutions. It provides fast-track services at security checks and priority access to VIP lounges at the airport, both in advance of departure and as a last-minute booking. uFirst improves customer experience at the airport in one single tap.

ULMA HANDLING SYSTEMS

Stand: 1425

Stand Representatives: Nacho Ortiz

Address: Garagaltza 50 - Apdo. 67, Onati, Gipuzkoa, 20560, Spain

Tel: +34 943 782 492

Fax: +34 943 782 910

Email: esoba@ulmahandling.com

Web: www.ulmahandling.com

Ulma Handling Systems develops baggage handling solutions, and designs and develops integrated baggage handling systems backed by its vast industry experience and an extensive range of products and modular solutions that are tailored to the functional needs of any airport. Ulma Handling Systems' solutions are tailored to the specific needs of each customer, and services are offered in domestic and international airports. The company offers integrated logistics solutions that span the entire value chain, from systemic design of the logistics process to in-house design of equipment for check-in, transportation, inspection systems, storage and sorting.

ULTRA ELECTRONICS AIRPORT SYSTEMS

Stand: 1020

Stand Representatives: Gary Pyatt, Shaun Penton, Mark Abson, Sébastien Jodeau, Gavin Evetts

Address: The Oaks, Crewe Road, Wythenshawe, Manchester, M23 9SS, UK

Tel: +44 161 946 3600

Fax: +44 161 946 3601

Email: sales&marketing@ultra-as.com

Web: www.ultra-as.com

Ultra Electronics Airport Systems has more than 150 airport customers and 100 airlines worldwide, meaning that over 75% of air travellers fly through airports served by the company's comprehensive suite of aviation software solutions. Its constantly evolving portfolio covers almost every airport and airline process, including operational performance, A-CDM, baggage management and passenger processing. The company's systems are highly flexible and configurable, helping you to shape your business and plan for the future. Ultra is consistently selected by the world's top airports and airlines to ensure smooth and efficient operations, with some customer relationships spanning more than 30 years.

UNIMARK

Stand: 937

Stand Representatives: Jim Larson, Ron Mears

Address: 13604 W 107th Street, Lenexa, KS, 66215, USA

Tel: +1 913 649 2424

Email: jlarson@unimark.com

Web: www.unimark.com

Unimark, a global leader in airline ticket, bag tag and RFID printers, offers the most advanced printers in the airline industry. Unimark's printers have gained the reputation of being the industry's most robust, engineered to withstand the challenges of the airport environment. Unimark printers are designed to maximise each customer's investment from a total cost of ownership. Customers realise an immediate reduction in their overall break-fix budget and are, in most cases, able to maintain printers on-site, avoiding costly depot service. Unimark will be introducing innovative new printer designs at PTE 2018.

USM AIRPORTSYSTEMS AG

Stand: 907

Stand Representatives: Brita Forrest-Hampson, Joerg Meinel

Address: C/o USM U. Schaerer Soehne AG, Thunstrasse 55, Muensingen, CH-3110, Switzerland

Tel: +41 31 720 7080

Email: b.forrest@usm.com

Web: www.airport.usm.com

USM Airportsystems manufactures furnishings for all passenger-handling processes in airports on the basis of the Swiss-made USM Modular Furniture system. The system was patented in 1963 and since then has been produced at the USM Haller production site in Muensingen near Berne. The basic construction allows limitless possibilities to extend or rebuild individual elements, to integrate technology, change the colour or convert units from stationary to mobile and vice versa. All modifications are simple. USM Airportsystems solutions are applicable in aviation as well as non-aviation areas, and allow airports to establish a uniform corporate design from check-in to boarding.

VANCOUVER AIRPORT AUTHORITY

Stand: 1125

Stand Representatives: Christopher Gilliland

Address: PO Box 23750, Airport Postal Outlet, Richmond, BC, V7B 1Y7, Canada

Tel: +1 604 276 6728

Email: inv@yvr.ca

Web: www.yvr.ca

Innovative Travel Solutions is the innovation team at Vancouver International Airport (YVR) and the creator of BORDERXPRESS – the world's first self-service border solution designed for everyone, not just the few. YVR has now sold over 1,300 kiosks to 39 airport and seaport locations worldwide, processing more than 160 million passengers. Now Innovative Travel Solutions has partnered with Glidepath, a global leader in airport baggage handling systems, to collaborate on the world's most accessible, efficient and intuitive self-service bag drop, CHECKITXPRESS. Visit Stand 1125 to see BORDERXPRESS and CHECKITXPRESS in action.

VANDERLANDE

Stand: 910

Stand Representatives: Ariane Schipper, Anouk van Beers

Address: Vanderlandelaan 2, Veghel, 5466 RB, Netherlands

Tel: +31 413 494949

Email: info@vanderlande.com

Web: www.vanderlande.com

At Stand 910, Vanderlande will present its latest innovations in advanced passenger checkpoint (APC) solutions. The company's APC solutions have been designed to help airports respond to growing security requirements and deliver a pleasant passenger experience. It is a seamless system that combines a modular, state-of-the-art automated screening lane with remote screening (centralised image processing). This allows screening agents to share the workload, counters the effect of traffic variation and significantly improves operational efficiency. As a reliable partner for value-added logistic process automation at airports, Vanderlande will also highlight FLEET, its baggage logistics solution based on automated guided vehicle (AGV) technology.

VEOVO

Stand: 203

Stand Representatives: Chris Warrington, Rebecca Calleja

Address: C/o Gentrack Ltd, 203 Eversholt Street, London, NW1 1BU, UK

Tel: +44 208 1734 000

Email: info@veovo.com

Web: www.veovo.com

Introducing Veovo, the predictive collaboration platform that enables airports to plan, predict and perfect every interaction. Over 135 airports worldwide use Veovo software to deliver exceptional passenger experiences at increased throughput, predicting and navigating their variable operations. The result: consistently brilliant guest, operational and commercial decisions. Bringing Gentrack's Airport 20/20 operations software together with BlipTrack guest predictability software and Concessionaire Analyzer+ revenue maximisation software, Veovo unlocks transformational insights across the airport ecosystem.

VIA GUIDE GMBH

Stand: 518

Stand Representatives: Andreas Schnieder

Address: Roenkhäuser Str 9, Arnsberg - Mueschede, D-59757, Germany

Tel: +49 2932 477 611

Fax: +49 2932 477 7611

Email: a.schnieder@viaguide.de

Web: www.viaguide.com

Via Guide is the specialist in passenger flow management in the airport sector and covers most aspects with several product lines. Beltrac stanchions and NeXtrac dividing walls with mobile or magnetic bases stand for the most innovative physical customer guidance solutions in 2018. Qtrac iQ customer flow measurement solutions are based on different technologies (passenger counting, waiting time measurement). They can integrate third-party data (POS data or data from metal detectors) for advanced and improved KPI collection. The QtracCF call forward system and Qtrac Smartgate improve the passenger flow in a queuing area and increase customer satisfaction.

VIDTRONIX LLC

Stand: 145

Stand Representatives: Ryan Mang, Gary Brown

Address: 6607 Martindale Road, Shawnee Mission, KS, 66218, USA

Tel: +1 913 441 9777

Fax: +1 913 441 9471

Email: r.mang@vidtronix.com

Web: www.vidtronix.com

In addition to being a leading manufacturer and supplier of boarding pass and baggage tag printers for the aviation and travel industry, VidTroniX offers a full line of check-in- and security-related products. The goal of VidTroniX is to work directly with clients to develop products fitting the specific needs of their companies. Since 1999, VidTroniX has installed over 85,000 ATP and MAP printers and it recently expanded its global presence in the marketplace with major installations in the Middle East, mobility solutions, incorporation of its printers into large-scale kiosk projects, and RFID baggage tag printers.

VISION-BOX SA

Stand: 1652

Stand Representatives: Jean-Francois Lennon, Richard Camman, Catarina Meleiro, Aaron Beeson, Kari Sutinen

Address: Rua Casal do Canas No. 2, Zona Industrial de Alfragide, Carnaxide, 2790-204, Portugal

Tel: +351 930 478 676

Email: whatsnew@vision-box.com

Web: www.vision-box.com

Vision-Box is dedicated to improving the quality, convenience, efficiency and security of travel and border control by offering user-centric digital identity management solutions built on trusted biometric tokens. Vision-Box is a partner of the most prestigious airports, airlines and governments, enhancing passenger flow, establishing identity ground-truth through high-performance enrolment, verification and authentication, and at the same time enabling multi-directional data transactions and actionable business intelligence. Vision-Box develops state-of-the-art user-centric touchpoints, custom front-end applications and collaborative orchestration software, to create a premium passenger experience. Vision-Box operates over 2,500 passenger experience solutions in over 80 international airports, facilitating the journeys of hundreds of millions of travellers every year.

VITRA INTERNATIONAL AG

Stand: 1770

Stand Representatives: Pascal Berberat, Maria Shuvalova, Claas Bräutigam

Address: Klauenfeldstrasse 22, Birsfelden, CH-4127, Switzerland

Tel: +41 61 377 1577

Fax: +41 61 377 2513

Email: transportation@vitra.com

Web: www.vitra.com/en-au/concepts-projects/public/airports-and-transportation

The planning and furnishing of airports contribute to both operational success and the wellbeing of passengers and staff. The products employed must therefore meet the highest demands in terms of quality, design and serviceability. The interplay of aesthetic value and robust longevity is the key to Vitra's ability to furnish airports with long-lasting quality. Thanks to the broad spectrum of products, visitors to waiting zones as well as users of other areas can benefit from the ergonomic and design quality of Vitra's products.

WANZL METALLWARENFABRIK GMBH

Stand: 710

Stand Representatives: Michael Tscharntke

Address: Rudolf-Wanzl-Straße 4, Leipzig, 89340, Germany

Tel: +49 8221 729 0

Fax: +49 8221 729 1000

Email: airport@wanzl.de

Web: www.wanzl.com

The sky is the limit for Wanzl passengers. The smooth-running and manoeuvrable luggage transport trolleys can accommodate suitcases and the like. As a systems supplier, Wanzl is also the partner of choice for complete trolley management and trolley monitoring. Passenger guidance systems steer passenger flows and ensure that passenger security checks at the airport gates are not only highly precise but also fast and tamper-proof.

WO AIRPORT INTERIOR

Stand: 425

Stand Representatives: Søren Jangaard

Address: Haraldsvej 51, Randers 50, DK 8960, Denmark

Tel: +45 87 78 0000

Email: sj@wo.dk

Web: www.wo.dk

WO Interior provides tray return systems for security checkpoints. It will be showcasing operational examples for small, medium and large airports combining a compact footprint with high flow rates (pax/m²), and turnkey solutions based on a modular building system allowing full customisation at a competitive price. The company will show its flexible modular platform and demonstrate how upgrades with new modules and reconfiguration make it easy to adapt to future legislation and new screening technologies. The tray return systems can be seamlessly integrated with leading scanner brands. Aesthetic design and quality in every detail and component are converted into robust and durable solutions, with ease of maintenance and cleaning routines.

WSP GLOBAL INC

Stand: 1745

Stand Representatives: Jason Brooks, Tim Morrison, Tina Millan, Mattias Frithiof, Carmine Bello

Address: 1600 René-Lévesque Blvd. W, 17th Floor, Montreal, Québec, H3H 1P9, Canada

Tel: +1 438 843 7614

Email: karina.bessoudo@wsp.com

Web: www.wsp.com

With over 75 years' aviation experience, WSP has successfully designed, developed, planned and managed projects at over 1,000 airports worldwide. WSP understands the challenges faced by its clients. Through advising, planning, design, construction and programme management, WSP provides extensive services that keep pace with the momentum of the aviation industry and the needs of clients such as airports and airlines, as well as public agencies. WSP is an administrator of ACI's Airport Carbon Accreditation programme, which to date has certified more than 200 airports around the world. WSP is one of the world's leading engineering professional services consulting firms.

XOVIS AG

Stand: 705

Stand Representatives: Fabian Ruetschi

Address: Industriestrasse 1, Zollikofen, CH-3052, Switzerland

Tel: +41 32 508 35 63

Email: christa.zesiger@xovis.com

Web: www.xovis.com

Switzerland-based Xovis is a market leader in people flow monitoring. More than 50 international airports count on Xovis to measure numerous KPIs such as queue lengths, waiting times, process times and passenger throughput. Based on the gathered data, airports optimise the planning of resources and the use of infrastructure to improve passenger experience and increase customer satisfaction. The combination of 3D sensors and software solutions stands out for its unmatched accuracy, reliability and ease of use. The system includes a sophisticated data privacy concept and does not depend on signal-emitting devices.

ZAFIRE AVIATION SOFTWARE LTD

Stand: 135

Address: 5 Manor Park, Banbury, Oxon, OX16 3TB, UK

Tel: +44 1295 701810

Fax: +44 1295 701819

Email: rwesson@zafire.com

Web: www.zafire.com/aviation

ZAMAR AG

Stand: 106

Stand Representatives: Zafar Kabilov

Address: Limmattalstrasse 184, Zurich, CH 8049, Switzerland

Tel: +41 43 3114009

Email: mn@zamar.aero

Web: www.zamar.aero

Zamar's focus is on improving the quality of passenger service. Modern trends provide more and more opportunities for self check-in and bag drop; moreover, technologies allow online tracking of flight statuses and location of luggage. The structure of airports is also changing: the widespread use of e-gates, e-borders and e-boarding all save passengers time and reduce airport infrastructure. Zamar will be glad to welcome you at Stand 106 and demonstrate the latest achievements of its engineers to ensure a

successful journey for the most important users – the passengers of your airlines and airports.

ZOEFTIG

Stand: 400

Stand Representatives: Ben Cowen, Martin Sharp, Fion Soh, Pauly Jos, Tom Hammett

Address: Kings Hill Industrial Estate, Bude, Cornwall, EX23 8QN, UK

Tel: +44 1288 354512

Fax: +44 1288 355954

Email: pwilliams@zoeftig.com

Web: www.zoeftig.com

For almost half a century Zoeftig has been at the forefront of terminal seating design, supplying major terminals across every continent. As the world's only multi-national specialist airport seating manufacturer, it continues to extend its global reach as part of the Figueras International Seating Group. It has solidified its place in core markets across the globe, while also laying foundations in emerging ones. Zoeftig's global HQ is in the UK but the company has satellite offices in Atlanta, USA (serving USA, Canada and the Caribbean); Dubai, UAE (serving the Middle East); Brazil (serving South America); and Singapore (serving customers in Southeast Asia).
